

World Adventurer Who Uses Airplane At Cranbrook Fri.

A world adventurer comes to lecture at the Cranbrook Institute of Science on Friday, Feb. 22, in the person of Richard Archbold of the American Museum of Natural History, who will speak at 8:30 p. m. on "Scientific Explorations with the Guba," an account of his third trip to the little known interior of the island of New Guinea.

Archbold's record as a scientific explorer includes the discovery of being the first to circumnavigate the globe at 26 degrees diameter by plane. From 1929 to 1931 he conducted an expedition in Madagascar for the joint benefit of the French, British and American museums, and brought out the finest collection of birds ever secured in the island.

The fabulous attractions of New Guinea prompted his first expedition during which he scaled the snow-capped peak of Mt. Albert Edward and made rich collections. His party, however, was hindered by difficulties of transport, there being scanty food, few porters and no trails in the almost inaccessible interior.

Mr. Archbold therefore prepared for his second trip by learning how to fly, and experiencing for half a year with methods of the living and picking up supplies by plane. His second party, equipped with a Fairchild amphibian, explored widely in the Fly river district.

His third and greatest trip was to Lake Hahama at 11,000 feet up in the center of the largest of the Pacific Islands. With a new flying boat, the Guba, he flew from San Diego to Australia, then up

to New Guinea. From the coast his plane transported the expedition's 110 men and equipment for three months' work to a lake higher than any at which a plane had ever before landed. Here, among the world's last Stone Age people, the party collected Birds of Paradise—rare birds.

Mr. Archbold's lecture will be illustrated by motion pictures taken on his Guba trip.

'TEA FOR TWO'

(Continued from Page 1, Part 2) for five weeks along with some 200 other young nurses called out by the Red Cross. She worked with the tenant farmers along the edge of the river where sanitation had even under normal conditions. The work was routine and mostly varying administration.

After five weeks she went back to Chicago and shortly took the job with the American Airlines. Here in Birmingham Mrs. Buck has already begun her Red Cross work in the fashion of the last recently-organized bandage group that meets Mondays at the Community House. When E. talked to her she was primarily concerned with finding workers to help fill Birmingham's quota of 44,000 units, quite a task that she has taken on.

CARL MILLES BUSY
ANN ARBOR—Work on the bronze figure for the University of Michigan (in honor of the late Judge Thomas M. Cooley) is well under way, the current President's report states. Gift of Alumnus Charles Hardt, the fountain will be erected on the campus Mall adjacent to the Burton Memorial Tower. Carl Milles, of Bloomfield Hills, Mich., is the sculptor.

Happenings of Long Ago

Fifty Years Ago
Feb. 18, 1941

Some misguided crank down at Big Beaver writes us an anonymous letter in which he tells us that this great moral engine, we supposed we knew how. Among the few things he does know, however, is the potent fact that no lady or gentleman will descend to the feeble station of writing an anonymous letter.

Married in Windsor, Ont., Feb. 11, 1891, by the Rev. B. D. Davis of the same place, Mr. Matthew B. Nicholson, of Detroit, and Mrs. Mary McGowan, of Birmingham. Matthew and his bonnie bride make a good looking couple and may their days be long with peace and prosperity.

Twenty-Six Years Ago
Feb. 20, 1915

Where are the oldtimers who predicted the red ruin that was to follow the inauguration of the new machine and the general going to the west front and back? Farious fighting is being done in the western front and back. The German war effort announced the capture of 700 yards of French positions in Champagne, south of St. Marie-Py. At this point 206 officers and men were taken prisoners.

Sari Petrus, the beautiful Hungarian actress, has been shot in Budapest. The information was received via wireless by residents of Cleveland.

Five Years Ago

Three Youths Find Wallet Under Bridge I'll Leave It To You

By JOHN DENGER

The other day a number of boys were telling us about how they had found a wallet under a bridge. The wallet was full of money, and the boys were wondering who it belonged to. They decided to turn it in to the police.

Ellen Giles Hit By Backing Car

Ellen E. Giles, of 1117 Woodland street, escaped serious injury Thursday when she was struck by a car being backed up by Collins, of Southfield Township. She was taken home in a private car.

Police Lie In Wait For Auto Thief

Police waited in vain last Friday night for a thief to return to his stolen car. The machine, taken in Royal Oak, was reported by Harry Mack as being parked in a peculiar manner at Woodward and Revolving road, partially obscured by a tree.

Mother: 'Now Junior say "A" so the doctor can get his fit out of your mouth.'

found them for his foolishness, however, when he found out that they had eventually settled their differences. He was not in a manner that led to mutual satisfaction. Having pooled their money, they planned to take a ride which would allow one to ride while the other supplied the foot-power. They planned to take their ride on the street.

They were great kids to think about, and for some time were collecting a series of letters from their friends. They were not to be taken in by the boys, and they were not to be taken in by the boys.

Dealer

It is a fact that a dealer in a car is not to be taken in by the boys. They were not to be taken in by the boys, and they were not to be taken in by the boys.

Seek City's Share On Red Run Drain

Earl L. Clark, Oakland County Drain Commissioner, has notified the City Commission of a project to clean out the Red Run drain into which Birmingham sewer pipes flow from 890 acres of the city area. The total cost has been estimated at \$40,000, of which Birmingham's share is 66.66 percent or \$26,424. Action was deferred.

Birmingham Man Injured In Pontiac

Bernard J. Moses, Jr., 24 years old, of 1134 Raffner street, was injured early Saturday morning on North Saginaw street in Pontiac when his car collided with a truck. He was taken to St. Joseph Mercy Hospital for a bumped head and lacerations.

NO hot water BOTTLENECK

with automatic

ELECTRIC HOT WATER!

FOR GAS STATIONS, machine shops, garages, groceries and meat markets, health clinics, physicians' and dentists' offices, and other commercial and professional establishments where hot water is important, ELECTRIC hot water offers several advantages: No lost time, no waiting for water to heat, no attention, no bother. You never lift a finger to heat water. Because the electric water heater is completely automatic, your time is your own. No "tank-watching" to hamper work or interfere with business.

More and more people are discovering the time-saving economy of electric water heating for business and plant. Thirty gallons of electric hot water every day (adequate if you need small amounts of hot water) cost only \$1.98 a month. See your plumber, electrical dealer, hardware or department store today. Or stop in at any Detroit Edison office. The Detroit Edison Company.

Do you have to "TUCK YOUR CAR IN" at night?

Not if it's One of these Four New Additions to the Buick SPECIAL Line that Compact Automobile Bigness Into Fewer Bumper-to-Bumper Inches

HERE of late the modern automobile has been getting a pretty good imitation of a man getting up in the morning. It has stretched and s-t-r-e-t-c-h-e-d—until today you almost have to have a shoehorn to get a car of any size tuckered away in the family garage.

We thought something ought to be done about that.

Thought it was time someone built a truly big car—big in ability, in room, in beauty—that was still compact enough, bumper to bumper, to fit your garage without dispossessing the garden tools.

So today in Buick dealers' showrooms you'll see four new models, additions to the 1941 Buick SPECIAL line.

They are typical Buicks on every count—trick-quick, sturdy, tireless travelers with big 115-hp. Buick FIREBALL straight-eight under their bonnets.

They dress every-mile you travel in trim Buick style—cradle every yard of distance on soft all-coil springing. They top off every trip with an even greater measure of gasoline economy, thrice traffic with a new numbness, and when it comes to parking find the proverbial dime roomy as a dance floor.

But by the simple step of compacting all this ability, goodness and value on a 118-inch wheelbase, we've trimmed inches off the over-all length—and dollars off the cost.

We're passing those dollar savings on to you, which makes three reasons for going to see these honeys now: You'll go for their ability—your year will go for trim size and easy handling—and both will stand up and cheer for the easily-reachable price.

"Best Buick Yet"
