

## Basketball Loop To Play Games Friday Evening

Boys' Club will meet Birmingham Athletic Club in the first game on the Y. M. C. A. Basketball Court at Birmingham High School gym, the second game will be between Legion Club and Mills'. Games will be played on the basketball court of a Parent-Teacher Association meeting in the auditorium tonight.

Beginning next week, games will also be played on the Thursday night, with B. A. C. meeting Mills' in the first contest; and Legion seeking Mills' in the subsequent games.

The schedule as regards the remainder of the season will be as follows:

Feb. 13—First game, Polygon vs. B. A. C.; second game, Boys' Club vs. Legion.

Feb. 20—Boys' Club vs. Mills'.

Feb. 27—Polygon vs. Boys' Club.

March 3—A. C. vs. Mills'.

March 10—Mills' vs. Boys' Club.

March 17—Polygon vs. Mills'.

March 24—B. A. C. vs. Polygon vs. Mills'.

## LIGHTS

(Continued from Page One)

additional revenue to aid the whole athletic program; not only that it will stimulate public interest in the schools for the benefit of people who have been deprived of seeing the boys play because they could not attend afternoon games.

The Board believes that receipts will retire the debt in three years' time.

Increased seating capacity has also been considered, but nothing done on that score. Additional bleachers will probably be rented next season.

There is now \$1,800 in the athletic fund.

**Other Business  
Of School Board:**

It is still not known where baseball will be played this spring by the High School team. Springfield Monday night, according to the original specifications called for a well producing 10,000 gallons a day water system. However, the school board has voted to spend \$1,000 more to use chemical tanks to remove the plentiful supply of iron, calcium and sulphur which is dissolved in the water.

**Peak Still a Problem**

City Manager Donald C. Egbert reported the satisfactory state of affairs to the City Commission. Monday night, he pointed out that the original specifications called for a well producing 10,000 gallons a day, but the school board had voted to spend \$1,000 more to use chemical tanks to remove the plentiful supply of iron, calcium and sulphur which is dissolved in the water.

**Shower Room Repair**

Repair of the shower room at the high school, installation of new floor, cost \$200 for plumbing, it was reported. "I feel the present condition is a disgrace," President Lee E. Joslyn declared.

**Quinton Junior High**

The Board discussed briefly the movement under way to re-establish the junior high school at Quinton School. Components of two board members were:

Mr. Joslyn: "The seventh grade would be installed in the building that I am giving up."

Mr. Mack: "I think my youngsters got a better education at Baldwin Junior High than they did at Quinton High. The advantages of Baldwin Junior high outweigh the disadvantages. In my opinion, I have swing over."

**Insurance Appraisal**

To make sure that the school buildings are neither under-insured or over-insured, an appraisal was ordered. Harry D. Osgood & Son, Inc., of Birmingham, will examine the six buildings for \$150. Another firm wanted \$600 for the same job. Osgood's reputation with insurance companies was checked and found to be excellent.

Bonds worth \$20,000 are being called. Total debt is now \$940,000.

**Bright Chip**

Father—“Gimme yer jacket, aff, mon, an’ come wi’ me, Joe.” “Yer no’ goin’ ter lick me, are you, father?”

Father: “I am that; didn’t I tell ya’ you fer had behavior?”

Joe: “Ay, but I thought it was only a joke, like why ye tell the grocer ye’sell’ wif him.”

**Will Get Lost**

Efforts will be made to acquire a dozen or 22 lots opposite the Pierce School, on Pierce street, for use as parking space. All of the lots but two are now state-owned for non-payment of taxes and the

deep, pressure from beneath forces the water up to within 87 feet of the surface, making a relatively short distance for the pump impellers to force the water up to the surface. When 2,000 gallons per minute were being pumped, the static level of the water fell 36 feet farther down.

There are two casings in the well; the outer one is 36 inches in diameter, and the inner one 34 inches across. The space between is packed with gravel. At the very bottom, a bronze alloy screw surrounded by a protective cage holds the water which needs no further filtering or treatment. This is 3 feet healthy to use just as it comes from the ground but it is necessary to use chemical tanks to remove the plentiful supply of iron, calcium and sulphur which is dissolved in the water.

## PROWLERS

(Continued from Page One)

Wallace, where he had been when his presence was discovered. First, he took a pair of pliers and wire cutters, took a pair of shears and wire cutters. Just then, Mr. Moore aroused and walked out and the thief fled according to S. E. Stinson, storekeeper, 112 Southfield Avenue, and Moore's empty billfold was picked up at Woodward Avenue and Michigan.

Two dollar bills and the silver dollar were taken.

The thief narrowly missed an encounter with Duane Meeker, a son of Mr. and Mrs. Meeker. He and his wife are 45 years old, shortly before their anniversary.

Saturday evening at 8:42, Mrs. Louis G. Wiggen, 881 Chester, reported seeing a brother and sister, a man and a woman, in the Alton Building, 878 Chester, before 8:45, who shortly thereafter ran from the spot.

At about 9 o'clock Saturday night that billfold containing a dresser's knife and Social Security card had been taken from their car in the garage. A flashlight was also missing.

Yesterday night, W. A. P. Jones of Tuxedo Lane, generated two police reports, one for his car and another for his home. George P. Evans also told of seeing the prowler in his yard.

**FOOT ADVICE**

1. Mrs. Edna R. Lahti, as chairman of the Wolverine State Service Committee, outlined four aims of her committee in a report read at this annual meeting. 1. To be a clearing house for all volunteer services in the community.

2. To survey to determine where volunteer service is needed. 3. To keep a record of the regular functions of this annual meeting, a resolution was passed that the Council on records as far as possible the additional services rendered by the Council.

4. To place volunteers where they are best qualified for the work to be done.

5. To furnish advice, services, and to supply specific instructional supplies and equipment.

Mr. Charles W. Nissen was appointed to coordinate all organization activities of the Council and to secure their approval of the increased 2½ mill rate.

**Mrs. Webster Reports**

Reported that Mrs. Webster, chairman of the Community Improvement Committee by Dr. G. Cull, chairman of the Adult Education Committee, reported \$35 in donations after \$7 had been taken in collection and \$1.8 spent.

The constitution of the Council on the Wolverine State Service Committee would be \$2 annually, rather than \$2 membership fee.

1. Mrs. Walcutt, president of the Council, outlined the three responsibilities of the group: 1. To serve your organization. This means, to help, to support, to help, to encourage and inspire the Council and reporting back to the group the work done by the Council. 2. Serving your community. This is a great responsibility, especially at a time when the world is restless and afraid; we have a great need for cooperative action. 3. Serving the state. Other communities are looking to be the leadership in
