### WHY A CORONER?

THE ridiculous coroner expense which Oakland County is being burdened this year focuses the spotlight on the main question itself: Why a coroner? Frankly, this observer, after 10 years of newspaper work, has not seen nor heard of a single instance in which a coroner has been brought to justice a criminal who would not have been caught by the police, sheriff or prosecutor anyway. Fortunately, the cost in Oakland County has been only \$8,500 a year, and there have been many cases where the services of an undertaker-corporator have been of value—but not in detecting crime.

**An Old, Old Position**  
In case some of our readers don't know what a coroner is, let me explain that it is a functionary whose history goes back to the 14th century in England, charged with the duty of examining the facts of every death in which the deceased died from unnatural causes or without natural action. In other words, he is supposed to determine whether a crime has been committed, and if so, who should be blamed for it. The work is important, of course, but the police and prosecutor do the same job. The coroner, usually an undertaker or a lawyer, is supposed to be the care of bodies and that may be worth the \$8,500 it has cost Oakland County in that year. This year, the minimum cost will be \$20,000 under terms of the law which provides that the new coroner will have to pay some one else to perform post-mortem for a continuing duty not fully of his own making.

**Need Medical Examiner**  
What Michigan needs is a law abolishing the office of coroner, substituting medical examiners who are appointed for their skill in pathology, not for their ability to win friends and influence people at an election. One such man could serve several counties, working with the Police.  
Even if that plan is not enacted, I understand a bill has been prepared along these lines, Oakland County could not be financially better off under the old system which would have cost \$25 a case and 10 cents for the total covering about the \$3,500 mark.

**Wheeler Proposes Peace**  
Some observations on the Wisconsin speech by the late Senator Wheeler, well correct in his belief that this country is probably erred in its outward war, probably erred in its outward war, probably erred in its outward war, probably erred in its outward war.

**Happenings of Long Ago**  
In the first place, each side is still in fighting trim and believes it can win.  
Second, this is not an ordinary war of the sort of which has flared up down through history, but a war of the sort of which has flared up down through history, but a war of the sort of which has flared up down through history.

**Never Recovered**  
Germany's economic system is not recovered from the drain on its capital suffered during the World War, and the dissipated elements of the military system in Germany, and the dissipated elements of the military system in Germany, and the dissipated elements of the military system in Germany.

**Twenty-five Years Ago**  
At Ringwood, the eldest of the Ringling Brothers, died at his home in Barbours, Wis., from heart trouble and Ely's disease.  
Henry Zepf announced at New York that he and William Zepf, together with the Ringling family, had the national preparedness trust in the United States.

**Hampering Defense**  
Thurman Arnold, the trust busting, now charges that America's armament program has been hampered by monopolistic prices for raw materials, and that the country is being hampered by monopolistic prices for raw materials, and that the country is being hampered by monopolistic prices for raw materials.

**Five Years Ago**  
Mrs. David M. Roy, a resident of Birmingham since 1892, passed away at her home at 1215 1/2th Street Sunday afternoon, Jan. 6, 1936, at the age of 88, the oldest citizen of the city of Birmingham.  
Honoring the five years of the present patriote the Women's Union of the Trust and the First Presbyterian Church are tendering a congregational reception to Mrs. Roy on Friday, Jan. 10, at 8 o'clock at the church parlors.

**Business Is The Servant**  
The development of business has transformed the life of human beings. The growth of industry has given modern conveniences to the masses. The power age, just beginning, will revolutionize human existence.

**Get Tough, To Save Life On Highways**  
During the holiday season, Detroit traffic judges (together with drunken and reckless drivers, sending many of them to jail) and at the same time the Police Department stopped up its patrol activities. The result was an immediate drop in the number of fatalities, which were far ahead of the previous year. This shows there is a cause and cure for the appalling automobile death toll in the United States.

**Change the Coroner Law**  
The new Michigan Legislature will have plenty on its agenda, but there is one matter of concern to Oakland County which two representatives in the House and one-half member in the Senate should give their immediate attention to. That is the coroner problem which this year will cost the taxpayers of Oakland County at least \$16,500 in wasted money.

**Building Costs Mount**  
A Birmingham contractor with whom we talked the other day deprecates the future of his field with material and labor costs mounting fast. Carpenter rates at the union will soon be \$1.50 an hour, he said. He feared that rising costs would overtake his factor of production. And that may well happen with the Government buying up lumber and other materials. Demand slacks, prices should drop, but will they? There is little real competition in the production of lumber, we are told.

**Excessive Labor Costs**  
Excessive labor costs can do the same thing, although front overhead and material factors and the like have a just complaint in the fact that their wages are being driven up by the Government buying up lumber, we are told.

**Understand that our representatives are prepared to act and have a new bill ready for introduction which would solve the problem.**  
The 1938-39 legislature abolished the old Public Utilities Commission without waiting for their terms to expire. Very likely a similar bill could be done for this new coroner setup which has been saddled on the taxpayers by accident. Let's see what our men at Lansing can do.

**Germany Is Starving Them**  
Great Britain's announcement that the blockade will not be lifted to permit the passage of food from the United States to those portions of Europe lying under Nazi domination was followed by the abandonment of the plan to make such shipments, at least so far as the Committee on Food for the Five Small Democracies is concerned.

**Protect the Morals of Soldiers**  
Fathers and mothers of men called into service under the Selective Service Act will echo the appeal of the War Department, made by the War Relocation Authority, asking them to protect the morals of soldiers when they are off-duty by eliminating areas of vice and immorality near Army bases.
