## Facts of Modeling Told in Volume Added at Library

By LINDO MOORE  
Maybe all your friends tell you that you have a good style, and you ought to make a wonderful model. Or perhaps you are already a model with your own history notebook with figures of swell dresses in the morning window. You are a model in clothes with an air and the ambition of your life is to find some of a niche in the fashion field.

If so, then Margaret Eyer's book "Help Wanted—Female Models" is a book you should read. It is a new addition to Baldwin Library. It is a long and interesting, well-written book, with a light touch and a serious purpose. It is a book for anyone who is interested in the fashion field, and it is a book that will be added to the library.

In the spirit of purple helpful books, we suggest it might not be amiss for those who are modelers to get that way, especially those who are interested in the fashion field. It is a book that will be added to the library.
