2 Officials Attend Natural Gas Talk

Two Birmingham representatives are attending a natural gas parley in Detroit today, called by John W. Smith, president of the Detroit Common Council.

(The Consumers Power Company, serving Birmingham, has announced that it plans to furnish this area with natural gas from the Southwest.)

Commissioner Harry E. Bissett and City Manager Don C. Egbert will attend the Detroit meeting today.

In his letter of invitation, Smith wrote: "The City of Detroit has had a great deal of experience with natural gas during the past 25 years. Your city should profit by what we have learned. I therefore feel it my duty to offer you the opportunity of obtaining the benefit of our experience."

Edward F. Ficht, 890 Clark; William P. Young, Sherwood School; W. Emory Wellman, 808 Purdy; and Donald L. Russell, 1291 Holland.

In regard to the student deferments, a circular letter from State headquarters has suggested that Local Boards give them consideration, mentioning the needs in the fields of engineering, chemistry, dentistry, medicine, and veterinary science. An "allocated" shortage is mentioned in the fields of pharmacy, physics, biology, bacteriology, geology and its related sciences.

Must Do Well

Colleges are recommending deferments only for students who are doing well in their work, it was said.

Following a recent national protest over the induction of men who had already served in the Navy or other branches of the service, all draft boards have been ordered to defer men who have spent three or more consecutive years in the Army, Navy, Marine Corps or Coast Guard. There is none in that category here, it was said.

Although no word has been received here, it has been reported that the July draft quota will be very heavy.

There are always some local citizens who have no use for the folks who run the paper until they want something suppressed.

applicable a short distance outside a city. The Commission assures him that the adjacent city property is zoned for residential purposes and thus would not affect him adversely.

He asked for water and sewer services, and was informed that it is contrary to city policy to grant these services outside the corporate limits. Nine years of the company's 10-acre parcel was supposed.

Bender said that the company has a payroll of from $20,000 to $25,000 a year.

Insatiable Curiosity

Little David is forever asking questions. The other night, his mother got completely out of patience and she cried out: "Don't ask any more questions tonight, David. You know curiosity killed a cat."

tered at Baldwin, but 1,006 voted. President Nolan asked for statement on the election, and was disappointed. "I expected a small vote, but I thought we had made a real effort to secure a full expression on the issue, should it be for or against Forty." Mr. Nolan declared the opposition had failed to offer any constructive criticism, and that the democracy for which it stands had won by a majority.

Mrs. Nolan, presiding at the tea table, was assisted by Mrs. Whipple, who served several volunteers did at the Playhouse. Mrs. Whipple and Mrs. Nolan were assisted by Mrs. Marion Hall, Mrs. Ralph Hall, Mrs. Ralph Hall, Mrs. Ralph
