bushels to the periodic thin field of Michelite beams! Michelite is approved variety of disease-constant, heavy-bearing white mayy beam oped by the Michigar State College Agricultural Experiment Station.

Army and Navy menus have undergone changes since 2018. But good old nourshing bease are still a staple item in the American service diet. This farms of this State produce about 450,000,000 pounds of field beans a year—nearly a third of the nations a chire crop. Both tin acreage and total yield, Michigane leads all other states in bean production by a wide pagain.

Big terminal electators get daily market quotations on beans by telephone. Those prices are simuediately telephone to the courier detention, which trapply with information about the previous day's purchases. Earmers call up their local elevators to get prices and arrange for the also of their cripps. Wouldn't some discious, swrapy-brown baked being taste good for supper? Well, the grocer is no farther away than your teen telephone.
