

Latin-American Theme Chosen for Dance Friday Evening

Frolic To Honor Membership Of Basketball Squad

One of the biggest social events of the high school year will be held in the Baldwin gymnasium Friday evening from nine until 12. This annual basketball dance will take place under the direction of the girls who have "Latin America" as its general theme. The theme name is "La Fiesta." Open in honor of the basketball letterman, this dance is sponsored by the high school's Student Congress. William Roberts is chairman of the general program committee. Mary Gardner heads the decorations committee. Mrs. Carol Dart, faculty advisor of the Con-gress, is assisting.

Good Neighbor Theme

Decorations will follow a true "Good Neighbor" theme and plenty of gay and exotic colors will be used. Large figures of dancers in Spanish and Latin American dress will be on the stage, while a large and colorful awning will circle the entire length of the track above.

No platform or non-dancer way for a unique entrance way, and the assembly club is handling the refreshment concessions. This concert will feature the music of the entire band and will include lounge for the use of the chaperones.

According to Jane Branson, chairman of invitations, all lettermen, chaperones, faculty members, and members of the Board of Education will be invited to attend. Formal invitations have been sent.

Frank Linn's orchestra, from Detroit, and the popular band to play in Birmingham, will make a return appearance at this event. Heading the orchestra committee is John Botsford, who has announced that much of the fun of the evening will be in Latin style. In other words, rumbas and salsas will be featured.

Bethany Hall, who is heading the program committee, a colorful souvenir program is being planned; a come-dance theme will be used.

Officers on Committees

Ann Sears is in charge of the favors and John Gillespie heads the class committee.

Basketball coach Franklin Wren will present letters to the designated members of this year's basketball team, consisting of Baldwin talent.

A large cast of students including singers and dancers have been engaged for the program. Among those who will appear are Doris Franklin and Sheldon Olson, both dancing to the strains of "Rumba Jamboree." They will be playing a few selections on the accordion and Nadean and Sue Kelleher, will be dancing during the show.

Mary Gardner will vocalize a few popular songs. Humor will be added to the program via Lauri Walker's comedy act.

The entertainment will be conducted by "Practicer Makes Perfect," which will be lead by Billard. The program will be directed by Miss Dorothy Allen, a graduate of the Assembly Club.

Reason

According to the way the average American thinks, if he doesn't save any money it isn't because he's saving too much, but because he is not making enough.

'As I See It'

By HUGH MACK

Walter the Weasel and I sat up one day and half the night figuring out who had the Baldwin team in scoring, who was second, and who was third. We were so lost, one point, and getting a hard time finding it, but here are the results:

Dick Gillette, 144; Dennis Tamm, 143; Charles O'Neil, 142; Howard Grull, 63; Paul Olson, 46; Jack Stetelman, 42; Deric Phillips, 38; Joe Armstrong, 36; Ray Privo, 24; Stan Peterson, 16; Ted Conner, 15; Dean Firth, 13; and Dave Kennedy, 3.

Privo was graduated at mid-year.

There will be eight letter men and many others who look promising to start the annual battle positions on the first team in baseball this year.

The most obvious week spot to date is the lack of a good catcher Olson and Kennedy, first baseman and right fielder respectively, both reported to be thinking of trying out for the job unless something turns up in the first few weeks of practice.

Paul Kelley, curve and control artist, will probably be one of the starting pitchers and he may be asked to fill in some other position if there proves to be a shortage of material.

Edison Cordon, another letter writer, is spending for the other starting pitcher position. He has had stuff in the winter, curves along with a drop and good fast ball; but the trouble is he is not comfortable with either. However, he is working on it, and if he gets just a little more control, we can be looking for a good pitcher and a lot of strik-outs to his credit.

Exchange Assembly For Oxford High Set For April 3

The students of Oxford High School will be entertained April 3 by an exchange assembly consisting of Baldwin talent.

A large cast of students including singers and dancers have been engaged for the program. Among those who will appear are Doris Franklin and Sheldon Olson, both dancing to the strains of "Rumba Jamboree." They will be playing a few selections on the accordion and Nadean and Sue Kelleher, will be dancing during the show.

Use Novel Methods For Sound Effects In Play, 'Tish'

By BRUCE CAREY

The sounds of a crashing through a store window, muted horns, both new and old, a shot in the dark, the ring of a telephone and the roar of an airplane motor are the problems of Fletcher Phillips, 18, and Frank Fink, 19, Stan Pouw, who were in charge of sound effects for the play, "Tish," which was presented last week.

The ring of a telephone was made by a doorbell, a small electric battery was used. A 32 blank cartridge pistol added a touch of reality.

An electric organ horn took the place of a modern automobile horn and a common bulb horn sounded for all the world like that of an ancient jalopy.

The boys went to considerable lengths to imitate the sound of an airplane propeller cutting air. A disc equipped with leather strands was revolved by an electric motor.

Because of lack of facilities, Maple Leaf will be forced to postpone all their matches away from home for the remainder of the season through a store window. The boys really did this job right. It was their crowning achievement. A new record of 100 percent attendance was shaken into the largest tin container. Then some steel chairs were kicked down a short flight of stone stairs and just for good measure several pieces of glass were tossed against the wall.

Edison Cordon, another letter writer, is spending for the other starting pitcher position. He has had stuff in the winter, curves along with a drop and good fast ball; but the trouble is he is not comfortable with either. However, he is working on it, and if he gets just a little more control, we can be looking for a good pitcher and a lot of strik-outs to his credit.

Brains To Count In Junior-Senior Reception This Year

Brain games more than beauty contests will be the order of the day for the junior-senior reception this year.

Henry Forster, director of activities of the girls with the highest scholastic average in the June 1941 class, will have charge. The lucky girl will receive a cash prize of \$100.

The cortages will be delivered wherever the girls specify the day before the reception.

Mothers To Fete Basketball Boys

Coach Franklin Whitney and the boys, than beauty contests, will be the order of the day for the junior-senior reception this year.

Henry Forster, director of activities of the girls with the highest scholastic average in the June 1941 class, will have charge. The lucky girl will receive a cash prize of \$100.

The cortages will be delivered wherever the girls specify the day before the reception.

Two Lettermen Back For Tennis

According to Robert Bryan, Birmingham tennis coach, the Match will open the new season with a double header between the junior and senior squads. However, there are a number of veterans here and the prospects appear to be good.

Because of lack of facilities, Maple Leaf will be forced to postpone all their matches away from home for the remainder of the season through a store window. The boys really did this job right. It was their crowning achievement. A new record of 100 percent attendance was shaken into the largest tin container. Then some steel chairs were kicked down a short flight of stone stairs and just for good measure several pieces of glass were tossed against the wall.

Offer Prize For AD

John Botsford, manager of the staff of the 1941 "Blackie" at the Birmingham Cavalier, will offer a prize for the best student-drawn advertisement submitted on or before April 1.

This opportunity has been opened to Baldwin students for the past five years, and the same prize of \$10 dollars will be offered again this year.

Excuse Us Too

An aviation engineer says that within ten years we shall be traveling 500 miles an hour through the air. He may, not do. The American Chamber of Commerce invited members of the advertising party who was well attended.

Sight Error

"So you're in college? How is he making it? One farmer asked another."

"He isn't making it," replied the second. "He's spending it."

Students To Lead Own Discussion

Musical Quiz Show Held At Adams

A democratic procedure in class meetings has been started during the past week in the fifth house, under the supervision of Lorraine Goodwin, 17, of Adams.

The students of Adams were previously asked to place their names in a box if they wished to take part in the discussion. The contestants were chosen by a drawing of names.

Emily Klapp had directed the class last week and scheduled for the future was Ruth Matteson.

This program has been tried in other historic classes and in some English and Civics classes, with

The winner of two pencils, first prize, was Doris Fish. The second prize, a ruler was given to Jerry Maynard.

It just Breathes a little Deeper and Wades In!

EVER stop to figure why Nature gave you both a nose and a mouth to breathe through?

Your nose, barring colds, does all right for ordinary purposes.

But go up against some heavy exercise and you can open up your mouth as well and increase the intake of oxygen.

Yup! 1941 Buick with Compound Carburetion® works something like that.

Its "nose," which is the forward one of your two thru-size carburetors, does a grand job of supplying "breath" for your engine on normal jobs.

But when the time comes that your engine has to dig in for a tough pull or a burst of power, then our extra anti-pressure on the gas pedale opens up the "mouth" and your engine "Breathes" through two carburetors.

Simple, isn't it? Yet, look what happens:

Your engine always consumes gas according to the need, never overfed by a carburetor too large for light jobs or underfed by one too small for the big ones.

By simply taking it easy when easy does it and breathing deep when the work piles up your power plant is as much as 10% to 15% more mileage from the same gasoline.

That in these days, is nothing to be sneezed at.

So why don't you get the whole story from your Buick dealer?
