

Making One's Will Explained In New Book At Library

By LINDO MOORE
A certain lack of enthusiasm about making a will is understandable, but according to the legal gentlemen who handle such matters, it is entirely unwarranted. Making a will does not imply immediate disintegration, failure to make one may mean litigation for years while the heirs the losers in the end.

Lathrup Townsite News

by LILLIAN DIEDERICH
Mrs. Jess McNeal and Mrs. Robert Vint, agent and vice president of These Flags Chapter D. A. B., announced to Port Huron to attend the three-day state session of Daughters of the American Revolution which is being held at Hotel Harrington, Port Huron, this week. Mrs. Emil Francis and Mrs. Gerald Wood and Mrs. John Gaydos will attend the banquet today.

Frank Clough Gouldberg, son of Mr. and Mrs. Frank D. Gouldberg, of Santa Barbara drive, will be married to Miss Marion Peabody, daughter of William A. Peabody of Detroit, at the Maria Mary Chapel in Greenwood Village, April 12, Saturday, at three o'clock.

Mr. and Mrs. Leo Golcar, of Santa Barbara drive, entertained four tables of bridge, Thursday evening. A midnight supper was served after the game.

Mrs. D. A. Jolin, of Saratoga boulevard, was hostess on Thursday at the Omega group, at the bridge luncheon. Three tables participated. Mrs. Jolin is planning a trip to Florida with her husband and parents in late April.

Party A Success
It was generally agreed by all who attended the dinner dance held at Bonnie Brook sponsored by Woman's Club, Saturday, that it was the highlight of club activities for the past year. The setting was just perfect for a dinner dance. Those who did not care to dance sat in the lounge and around the huge breakfast table sat more than 80 Lathrup club members and their husbands. Leo France drew the first prize when in the spirit of fun he topped his dress clothes with a ridiculously small man's straw hat and then gave a humorous talk. The success of the party was undoubtedly due to the efforts of Mrs. Roy Gragg and Mrs. Edward C. Donkey.

Betty Waddell, of Radcliffe boulevard, had her first Easter vacation. Betty attends Michigan State.

Mr. and Mrs. Charles Bartholomew and son, Leroy, of Santa Barbara drive, and their daughter and son-in-law, the Glen D. Rhodes, of Detroit, drove to Flint on Sunday last week when in the spirit of fun he topped his dress clothes with a ridiculously small man's straw hat and then gave a humorous talk.

John S. Parkes is convalescing in his home on Saratoga boulevard, after an appendectomy performed two weeks ago.

Date Changed
Notice Women's Club members:
The date of the dinner dance has been changed to Saturday, April 14, at 8 o'clock.

University of Michigan
JANE CHENEY, 1244 S. College, Birmingham, was this week elected vice-president of the Alpha Epsilon chapter at the University of Michigan. She is a member of the Psi Chi and Phi Kappa Phi societies.

Ohio Wesleyan
KENDALL, of Birmingham, was selected for Phi Kappa Club at the University of Michigan. He is a member of the Psi Chi and Phi Kappa Phi societies.

I'll Leave It to You

The Proposed 5% Tax
There has been some talk in Washington about a special 5% tax on incomes to help pay for the material and the that will be expended to fight Britain under the terms of the lend-lease law. It is just one of the many proposals that will be considered, in the next few weeks that will be considered, in the next few weeks.

Denier?

Exempts Half of Families
According to latest statistics, 10% of U. S. families have incomes below \$200 a year. The rest of the population has incomes between \$200 and \$500 a year.

Have You Met...

Mr. and Mrs. Grant Watt, formerly of Detroit, and now of 920 Hennetta street, they declared to move to Birmingham because it seemed to be rich "nice place to live." Mrs. Watt, who was Claude Craig before her marriage, grew up and went to school here. Mr. Watt is employed by the Public Radio corporation in Detroit.

Discriminatory

I feel that the restrictive and discriminatory nature of practically all of the Federal taxes so far enacted under the New Deal has been most responsible for the fact that the largest portion of our population today are comparatively uneducated.

A REPORT to America

The Ford Motor Company's business has always been to serve the needs of the American people. In providing them with low-cost transportation for the past 38 years, we have developed one of the country's largest and most useful industrial units. During a national emergency, we feel that these facilities should be devoted without reserve to our country's needs. Toward that end we started rolling months ago, with these results:

- 1 A \$21,000,000 Ford airplane engine factory, started only 6 months ago, is nearly completed. Production will start with an initial order of 4,236 eighteen cylinder air-cooled, double-row, radial engines.
- 2 We are building a new \$800,000 Ford magnesium alloy foundry, one of the few in the country. It is already producing lightweight airplane engine castings.
- 3 Army reconnaissance cars — military vehicles of an entirely new type — are rolling off special Ford assembly lines at the rate of more than 600 a month. We have produced Army staff cars and bomber service trucks.
- 4 The government has given the "go-ahead" and work is now under way for the construction of an \$11,000,000 Ford plant to produce bomber airplane assemblies by mass production methods.

5 Several months ago work was started on our own initiative on an entirely new 1500 horsepower airplane engine especially designed for mass production. This engine is now in the test stage and plans are being developed for producing it in large quantities when and if needed.

6 A Ford aircraft apprentice school has been established to train 2000 students at a time.

That is a report of progress to date.

The experience and facilities of this company can be used to do much of the job which America now needs to get done in a hurry.

Our way of working, which avoids all possible red tape, enables us to get results and get them fast. This benefits users of our products and workers who produce them.

We are ready to make anything we know how to make, to make it to the limit of our capacity if we can, to make it as fast as we can go, and to start the next job whenever our country asks us to. And to this end, we know we have the full confidence and loyal support of the workmen throughout our plants.
