How to make horsepower out of thin air! Buick Special 6-passenger Sedan, \$1006, white sidewall tires extra. IF you know anything at all about automobile engines, you know they run on a mixture of gasoline and air. So consider these plain facts about the engines in this 1941 Buick Special: The engine that regularly powers this Series develops 115 horsepower and turns up 20 1/2 miles per gallon at a steady 30 miles an hour in Proving Ground economy tests. But add Compensated Carburetion, and the same engine in the same model develops 125 horsepower and gets 21 1/2 miles per gallon by exactly the same tests. There's more for less gasoline—and it comes, literally, out of thin air. Because the two carburetors in this exclusive... BUICK PRICES BEGIN AT \$915 FOR THE BUSINESS COUPE.
