

Southern Eccentric Takes Up Its New Water Department

Project Includes Spending \$275,000 For Mains, Wells

Probably the most ambitious project in Southern Eccentric's history is under way with the laying of a formal ordinance setting up the new water department. The ordinance was passed last night and passed the official publication in today's Eccentric.

The project itself, however, has been under discussion for many months, and revenue for the \$275,000 have been authorized by the Township Board. Most of that sum will be used to install new water mains, and the laying of pipes has already started.

In the southern part of the township, the City of Detroit is purchasing the water in the northern part, particularly Beverly Hills, and the water will be used, new engine plants and wells. One new well is planned. Several subdivisions water systems have been or are likely to be incorporated into the new system.

The text of the ordinance follows:

Ordinance No. 109
 TOWNSHIP OF SOUTHERN MICHIGAN
