Knocking on Wood

Just now Americasis trying to build gun for gun and plane for plane to defeat the forces of barbarism which are sweeping Europe. That is one method of defeating this dargerous upsurgence of the general falsity on which fascism is based, brighty that the strong should rule and that the state is everlything, the individual, nothing. But this is more than a way nof force against force; it is conflict of one set of ideas against another, as thave just pointed out, and that is where the schools fit into an all-inclusive plan for national defines.

This is, National Systemation are soft the taxpayers, and as such, week; what better times there is they avoid pontroversy in order to review what the schools are to for a regularly. They must have slong to inferent reaction, to our backing.

Enforced and without which education and engineering use handlinpped, is the job of officers of the law, and the courts. In this realm of safety control our observation leads us at this timuty we believe much progress can and should be made. This is quite true of Birmingham, which a located in an area where there is much through traffic; where most of the local inhabitants own and use motor carse, where an abundance of youth sits behind the wheel of these "flying bullets".
