Musicale Plans Stimulating Program

Mrs. E. R. Chapman, newly appointed program chairman for the Birmingham Musicale, this week outlines the Musicale's work for the year. There are to be seven programs, one each month, instead of the usual two as in former years, which have been planned so as to appeal to all types of music lovers.

Mrs. Chapman, who is a soprano of renown herself, states that each program has been planned to be an outstanding and stimulating one. She has appeared in concerts extensively throughout the United States, and in the Chicago Opera.

Members of this year's program committee are Mrs. Edgar Bailey, Mrs. S. H. Bangs, Miss Phyllis Corin, and Mrs. George Turner.

The Musicale's first meeting of the year will be an open meeting on Thursday, Oct. 2, at the Community House, and will be followed by tea. An unusual program has been planned for this first session. In November the club will hear the young two-piano team, Richard Johnson and Robert Milliken, of Ann Arbor.

For December it has been decided to have the Christmas Chorus and the Slumber Song of the Madona. Phyllis Ahlers, of Birmingham, who has been studying

Mrs. Chapman

at the Julliard school in New York, will return to be guest performer for the January meeting.

An entire program of Bach has been planned for February, and Mrs. Chapman herself will sing, accompanied by a string quartet, oboe, and harpsichord. The Woodwind quartet from Baldwin High School is to be featured in March, and April has been set aside as Pan-American month. The Musicale's year will close with the annual meeting and a special program in May.

Miss Hormel's Monthly Lectures Scheduled to Start on October 20

Complete programs and preliminary book lists for Olive Deane Hormel's course on the new books and plays have been received by the committee in charge of arrangements for this year's series, Mrs. Reed Alexander, president of St. Catherine's Guild, the sponsoring organization, announces.

Eight monthly lectures, which are a feature of the University of Michigan Extension Service, are to be given at 2 o'clock on the third Monday afternoon of each month, beginning Oct. 20, at the Baldwin Public Library.

This lecture series is unique in having the full cooperation of both publishers and producers, making is possible for Miss Hormel to discuss new books at the time of their release and new plays frequently from script.

Six of the lectures deal with the important new books in various categories and two discuss the new plays which the lecturer attends in December and April, reporting them in January and May. The lectures preceding Christmas as traditionally devoted to outstanding new books from a holiday angle.

Pamphleteering Discussed

"Pros and Cons of the Pamphleteers" is the subject of the first lecture, which will deal with the recent revival of pamphleteering in the publication of such compact and influential works as "The Wave of the Future" and the flood of replies to it. The lecturer will summarize the controversial trends embodied in the more recent of this type of books, including such opposites as Douglas Miller's "You Can't Do Business with Hitler" and General Hugh S. Johnson's "Hell-Bent for War," or Edmund Taylor's "Smash Hitler's International" and Pierre Van Paassen's, "The Time Is Now!"

This latter book, which emphasizes the strategic importance of Africa, will be further touched upon in the second lecture, "New Light on the Dark Continent." This will take up a number of the new books about that too little-known region, enlarging upon the aspects discussed in Negley Farson's recent book, "Behind God's Back."

Later lectures will be "The Challenge of the Orient," dealing with books on the Asiatic situation; "Our Good Neighbors," discussing the new books about the countries of the western hemisphere; "Rediscovering the U. S. A.," taking up the beautiful new volumes on regional America and four characteristic contributions to the arts. The two play lectures are "The Holiday Theatre" and "The Ten Best Plays of 1941-42."

Keyed to National Defense

The series will thus be closely keyed to the increasingly important need for better understanding of the issues involved in national defense and the relation of the United States to the world situation.

The lectures are one hour long, followed by questions and discussion. The lecturer brings with her the books upon which she teaches, thus giving those interested an opportunity to scan these important new volumes. Book lists containing full data on the books discussed and play lists for the theatre lectures are supplied each month.

This is Miss Hormel's fourth season with the University of Michigan Extension Service. Her course was first given in 1938-39 to ten groups, and in 1939-40, with twelve groups, the enrollment more than doubled. This season, twenty-two sections are scheduled in nineteen communities, in many places for the fourth season and in others for the second or third.

Tickets for the series may be had from Mrs. William L. Martin, chairman of the ticket committee, or from Mrs. Albert Johnson and Jeanne Hart. The enrollment fee for the series is $3.
