

### Conco John Tells Engagement at Tea Saturday P. M.

Mr. and Mrs. W. A. P. John, of Tooting lane, have announced the approaching marriage of their daughter, Constance, to Pvt. Richard John Morgan, son of Mrs. William B. Morgan and the late Mr. Morgan, of Detroit, at a tea in their home for 20 close friends and relatives on Saturday afternoon. Constance's brother Aviation Cadet Colin John, arrived home unexpectedly to complete the gay occasion.

The news was told by two hearts held by cupid, with the names "Dick and Conco" on them, nestled on the big mirror in the living room. Eggnog was served from a huge silver bowl on a table decorated with white roses, white snapdragons and tall white candles.

Conco attended Kingswood school and Pine Manor and Richard attended Cranbrook School, Carroll College and the Babson Institute at Wellesley, Mass. He is stationed at Fort Custer.

No date has been set for the wedding.

### HAPPY BIRTHDAY

Posing on the day of his birth, near Seattle, Wash., is Constance's Yonkie Doodle Dandy, the world's most valuable bull calf. His famous mama, Garnison Ormsby Madcap Fayne, broke all world's records for milk production last May.

### East Of Birmingham

**COOKING WITH GAS SAVES YOU MONEY, VITAMINS... FLAVOR AND FUEL!**

Gas is a quick, economical cooking fuel. It is ideal for retaining the natural juices and flavor of meats, poultry, fish, vegetables and fruit.

Tests prove that low temperature roasting, broiling and boiling of meats retain more natural juices and flavor than when they are cooked at high temperatures.

Broiling and frying must be done at a low heat for best results.

Vegetables are easily ruined both in taste and food value by overcooking both at high and low temperature. Most fresh vegetables should be prepared with the least amount of water possible thus retaining their own juices. Fruits should be treated in the same manner. Don't destroy all the essential minerals and vitamins in fruits and vegetables by overcooking.

Gas is an ideal way to prepare these foods. It can be easily regulated and it is a low cost modern cooking fuel every homemaker will enjoy.

### 3 College Students Receive Honor

Three Birmingham students are included in the 1942-43 issue of "Who's Who Among Students in American Universities and Colleges," a book to be released in January or February.

They are: Mary Garfield, daughter of Mr. and Mrs. H. L. Garfield, 441 Aspen road, who will receive her AB degree from Wiscota College; Constance Peck, 580 Hanna street, daughter of Mr. and Mrs. Raymond H. Peck, to be a June graduate at Kalamazoo College; and Robert H. Whittlesey, son of Mr. and Mrs. M. B. Whittlesey, 1270 Southfield avenue, who will receive his degree from Wesleyan University in Connecticut in January.

600 Cooperate

This publication is issued through the cooperation of over 600 American universities and colleges.

Several students from each accredited college are selected each year by an unprejudiced committee and indicate exceptional leadership in that particular institution. The larger the school, of course, the greater would be this honor.

Miss Peck is a member of Phi Kappa Alpha and Alpha Lambda Delta honorary fraternities and Alpha Sigma Delta sorority at Kalamazoo College, was president of the College Players, secretary-treasurer of her sophomore and junior classes, secretary of Trowbridge House and of the Overby Musical Society.

Miss Peck graduated from Baldwin High School in the class of 1939 and during her high school career was a member of the National Honor Society.
