

# Men in Service

Editor's Note—Men in the armed forces, and parents, are invited to send us news of the boys' whereabouts and activities. Service men, stationed about the country, are hungry for news of their friends. Even the address of a newly-placed inducted man is of interest.

## Junior High Team Defeats Alumni

By JACK STEELMAN  
With the current basketball season under way, the junior high school basketball team was victorious in its first game of the season, a 21-11 defeat of the Alumni, trouncing them 27-11 last Wednesday at Barnum.

Playing before a small, early-season crowd, Barnum and the Alumni finished the spectators with a see-saw game until the fourth quarter, when the Junior School, led by the fine shooting of Stan Schaeffer and the floor work of Dan Herron, paved their way to a decisive victory.

The game was marred by many personal fouls, and Dan Herron, junior high guard, was ejected from the game, but not until he had accounted for five of his team's points. Stan Schaeffer, raring center for the victors, scored 12 points, one more than compiled by the whole Alumni team.

The Alumni were handicapped by the fact that they could not use men out for the worthy team at Barnum. The school's Dick Austin proved himself a versatile substitute by scoring four points for Barnum. The team as a whole appears to be a promising one.

The starting lineup was Dave and Herron, guards; Gregory and Captain Tyson, forwards; and Dr. Ferris Heads Hospital Staff.

New officers of St. Joseph Mercy hospital, Pontiac, are Dr. Ralph C. Ferris, of Rivensack avenue, as chief of staff; Dr. Otto O. Beck, of Fairfax road, as vice-president; and Dr. Norman F. Gehring, of Pontiac, as secretary and treasurer.

**National Habit**  
Teacher—Mention one of the customs of Christmas time.  
Pupil—Running into debt.

**CAMERA DOES LIE**—Here's dubious proof that there is such a thing as a turkey with 10 drumsticks. The bird was hatched by a Hollywood photographer, who obviously doesn't believe the old fable about the honesty of the camera. Incidentally, the carriers are Lucile Lamour, Dorothy Schooner and Harriet Hudson.

M. L. Kuykenthal is convalescing at home after an emergency appendectomy performed two weeks ago at Harper Hospital.

Little Tommy Francis, age five, celebrated his birthday Dec. 2, with a party for several small boys in the neighborhood.

Those gracious twins, "Tom and Jerry," will be dishd up with hot with nutmeg, come four o'clock, Tuesday, Dec. 29, beside the Howard Stock bar. This will be a Happy New Year gesture.

**Dangers of War**  
"Believe it or not... This year comes straight from Mary Schick, as told to the Fortnightly Bridge Club, Tuesday afternoon. As to its authenticity, ask Marg! A promise of butter for sale offered customers by a Royal Oak market, Saturday, brought crowds. The sign was terrific, and in the rush to obtain the eagerly obtainable, a woman fell and broke her leg. It is said on good authority the "manager" has got arm in a sling due to a false step which felled him while reaching for TEA for a patron the preceding Saturday. It was suggested the meat market manager could easily throw a fit should a parking house see fit to deliver him a side of beef!

**Grief!**  
The William Nettles, of Lathrup boulevard, returned Sunday night from a weekend trip to find their new home practically submerged. The second floor plumbing had burst and flowed unceasingly over bathroom, bedrooms, and down ward over the living quarters. Rugs and furniture stood in rivers of water.

**Reckon?**  
Men buy from two-thirds to three-fourths of all the ice cream sold in the United States, according to a survey recently made. Of the 2 to 3-year old kids consume most of it.—Shreveport Journal.

## HOW TO stretch WAR OUTPUT WITH LIGHT!

No matter how good a workman he may be, a man can only work as fast and as accurately as he can SEE. If machines and assembly lines are hidden in shadow, or if the light is so poor as to make seeing difficult, production is bound to be slowed up.

It takes TIME to see... and when you improve lighting, you make it possible for a man to see faster. With BETTER LIGHT, and swifter, surer vision, he can turn out more work—with fewer mistakes—and with far fewer accidents. Good light actually ADDS MINUTES to each man-hour, increases war production without adding men or machines.

Here's another scientific fact equally important to war workers. It takes energy to see, and the poorer the light, the more energy is required to do the same amount of work. If a man can't see easily, he tires faster. And a tired worker can't continue to be a top-notch producer.

Let us show you how to use LIGHT FOR PRODUCTION most effectively in your plant. Detroit Edison Industrial Lighting Advisors are at your service, without charge.
