Since Pearl Harbor, the Army and Navy have Real Eatate bught, or are in the process of buying, private property equal to the combined areas of the states of Massachusetts, Connecticut, Rhode Island, Delaware, and almost all of New Jersey, according to the Office of War Information.

This is a tremendous acquisition of real estate, although we should remember that the states mentioned are not very large geographically. Before the war is over, it is estimated, that around 30,000,000 acres of land will be active to the control of the contro

FIFTEEN \$1,500 STATION WAGONS twice daily to transport a number of Washington naval "brass hats" three blocks from ington naval "brass hats—three blocks from their parking lot to their offices, we learn. That's another excellent "example" of per-sonal sacrifice for the whole population. (That \$3,000 Baruch parts for the nather weels, Mr. and Mrs. Harry Hopkins, in Washington recently, is another "example" of sac-rifice. Of course, the money was Baruch's, and he's doing lots of good otherwise: but what of Harry and his beautiful ideas of

LAYEMBER VLAPIER COUNTY HEY laid an egg four and a half inches long, said to be enough for the family that owns it. Personally, we think that here has violated a federal law, and ought to be placed on a rationed basis of production. We'll wager, too, that one of the fance Washington theories would agree to prefect such a plan of rationing.
