IF NOT THERE'S TROUBLE AHEAD!

Winter is a dangerous time to risk riding with ineffective brakes. Brakes that don't hold or are out of adjustment, so that they throw your car

sideways when you apply them, need attention. Don't wait until you can't stoplet us check and repair them for you so you can. In this day of National Emergency, when it is impossible for you to buy another car, it will

pay you to take the very best of care of the one you have. Accidents are expensive, so keep your brakes in the best of working condition. Don't take chances.
