Saving

1,000 DRIVING-MILES PER DAY-

...how Detroit Edison customers

are aiding the War Effort

A short time ago, we asked your patience in the matter of Detroit Edison delivery and service calls, explaining that it might take a little longer for an Edison serviceman to arrive, and that deliveries might not be quite so prompt. We did this in an effort to save cars, tires, manhours, gasoline . . . yet still provide reasonably good service for our customers.

You have cooperated generously in this pro-

gram, and thanks to your patience, we can

report worthwhile results. By ROUTING customer calls-that is, by grouping all the calls in a certain area so that a man can handle more in a single trip-we are saving 1,000 miles of driving per day. Our customers have

not been inconvenienced too greatly: The latest figures show that 84 PER CENT of all customer calls are answered within an hour. Meanwhile, material shortages grow, more critical. We are making further studies on how to

achieve even greater savings in rubber, gasoline, and man-hours, and still maintain good

service. We know that if we are obliged to adopt

a new plan along this line, you will cooperate

with us as whole-heartedly as you have done

in the past. Patience can be patriotic, too.

DESTRUCTION . . . IN SMALL PACKAGES

INCENDIARY BOMBS are little things, far less noisy than the huge demolition bombs but just as destructive when they find their targets. One bombing plane can drop a thousand, each a package of white-hot fire!

Householders are learning how to fight the incendiary bombing of their homes, thit comes. For if hundreds f small fires started at once in a single community, it would take the alert

cooperation of everybody to prevent a major conflagration.

The secret of fighting a wide-spread fire is speed. Fire-fighters, volunteers, police and others must be summoned instantly. That cannot be done if the telephone system already is jammed with calls.

So during and right after an air raid, please do not telephóne except for vital messages.
