GET NAVY 'E' AWARD

HONORED FOR OUTSTANDING CONTRIBUTION TO THE WAR EFFORT

NAVY "E" BURGEER

Presentation Speech of REAR ADMIRAL WILLIAM CARLETON WATTS, USNR.

REICHOLD CHEMICALS, INC. JUNE 24, 1942

Mr. Reichhold, Mr. O'Connor, men and women of the Reichhold Chemical Corporation...

I am very happy in being here with you all today and I am looking forward very much to going through your plant...

At this time, I want to talk to you about one aspect of war in general, and how some of them have been throughout history...

Sea power now depends on submarines lurking in the deep—on surface ships as varied as the tiny motor torpedo boats...

By cutting down barnacle growth this paint decreases hull maintenance and increases ship speed...

In every country now at war—and that has become almost every country in the world today—men in factories, in laboratories...

The officers and men of your Navy are "ready and willing" to fight to the death to prevent this thing...

The Navy feels that, although you of the Reichhold Chemical Corporation may never have to face the Hell of war at sea...

You already know, I feel sure, the meaning of this Navy "E" and the pride with which it has long been honored in the Navy...

If you do this, I know that the Navy will be proud to add a star to your name...

I am charged by the Secretary of the Navy, whose personal representative I am, to give you his greetings and, in presenting for him to you the Navy "E" Pennant...

Accept my own sincere congratulations also.

Advertisement for Reichhold Chemicals, Inc. featuring the Navy 'E' Award and a list of products including Grapefruit Juice, Kellogg's Corn Flakes, and various meats.
