Group to Combat Axis Propaganda

DETROIT—To combat various Axis propaganda intended to drive a wedge between British and American relations, British-American groups in this area are forming what is to be known as the British Empire Association of Michigan.

The first joint function of the societies that make up the British Empire Association will be a ball at the Masonic Temple the night of April 11, it was announced by

Robert W. Cameron, of Grosset Point Park, chairman of the event. Entire proceeds of the ball will be turned over to the Army and Navy Recreation League, headquartered at 1243 Washington Blvd., Detroit, to further the latter organization's drive to furnish and equip barracks canteens in the various Army camps and Navy stations throughout Michigan.

'My Sister Eileen' Coming to Detroit

"My Sister Eileen," the comedy hit, now in its second year in New York, will play a future engagement in Detroit, at the Shubert-Lafayette Theatre starting Sunday evening March 15. The engagement is to be for an indefinite length. Popular prices will be in effect for the entire run.

The play relates the troubles of two sisters, who hail from Columbus, Ohio. They go to New York where they settle in a basement

apartment in the Greenwich Village section. One is intent on a stage career, while the other has ambitions as an authoress. Their trials and tribulations, affairs of the heart, and ultimate success, were related by Ruth McKenney in a series of stories in "The New Yorker." It was adapted for the stage by Joseph Fields and Jerome Chodorov.

At present there are four companies of "My Sister Eileen" on tour: One is in New York, where it celebrated its 500th performance last week; another is touring the West coast, a third is playing the cities in the east. The fourth

Will Replace Free Worn Shopping Bags

Continuing its program of conserving essential war materials, especially paper, the Kroger company has announced that it will replace free of charge customers' worn and unserviceable shopping bags.

W. W. Rogers, branch manager in charge of the company's operations in this area, said the plan has been adopted as a feasible means of conserving paper for war uses, adding that it takes a minimum of five pounds of paper to make one artillery shell and that the government is expected to need at least 20 per cent of the country's total production of paper this year.
