

Relief Committee Reveals Activities

The War Relief Committee of First Church of Christ, Scientist, Birmingham, with Mrs. William Colvin, as chairman, meets every Tuesday from 10 a. m. to 4 p. m. in the Sunday School rooms of the church edifice and invites those who are interested to meet with them.

The local committee is a branch of the Christian Science War Relief Committee of the First Church of Christ, Scientist, in Boston, Mass., which was established in September 1940. It has recently released its second annual report.

This shows that it now has more than 1500 branch units active in the United States of America besides many more in Great Britain, Canada, Australia and the Union of South Africa.

The committee has assembled since Pearl Harbor over 66,000 pounds of durable clothing and bedding, in waterproof, moth-proof, wooden cases, at convenient locations on the Atlantic and Pacific coasts, ready for instant use should emergencies arise because of local enemy action.

More than 32,800 garments have been distributed, through military distribution centers, to men in the United States forces. One of the most impressive branches of the work from the start, before America entered the war, has been the distribution of clothing and comforts to bombed-out people in Great Britain and to refugees from Holland, Norway, Russia, Poland, Belgium and

other European countries. Clothing has gone direct from Boston to Russia, and knitted goods have been sent there from branches of the committee in England. One example is the preparation, with its six weeks, of 1820 knitted garments for the Russians. Overseas workers have won the commendation and cooperation of local authorities by their prompt arrival on the scene of trouble. In cities heavily bombed, such as Plymouth, Coventry, Bristol, and Southampton, they have gotten there with food and clothing, ready to go to work, even before the "All Clear" sounded.

The total value of material in stock is estimated at \$1,533,300. In addition to this money, gifts have been sent to China and other needy countries, and three motorized canteens have been sent to England; they are located in London, Sheffield, and Rochester.

The committee is ready to aid in relieving human suffering caused by war wherever it can, and it cooperates with many other officially recognized relief agencies, readily contributing whatever of its supplies are available.

U. of D. Plans Annual Homecoming

Annual Homecoming celebrations at the University of Detroit which will be held Nov. 27 and 28 will be dedicated to the second squadron of University Naval Air Corps flyers to leave for the war as a symbol of the 1128 students and alumni in the armed services. Chairman Robert Teague announced today.

Homecoming festivities will begin Friday, Nov. 27, with the annual bonfire and parade and will continue Saturday with the sounding of taps and dedication ceremonies at the U. of D. Oklahoma football game and at the afternoon dance sponsored by the Alumni, Teague said.

"Ancient and Modern Neronomy,"
also Memoriam and Hymnology. De-
votional" will be the subject of the Les-
son-Sermon in all Christian Science
Churches throughout the world on Sun-
day, November 29.
The Golden Text (1 Cor. 16:13): "I
watch ye stand fast in the faith, until
you like men, be strong."
Among the Bible citations in this pas-
sage (12b, 13:1): "Put on the whole
armor of God, that ye may be able to
stand against the wiles of the devil."
Correlative passages to be read from
the Christian Science textbook "Science
and Health with Key to the Scriptures,"
by Mary Baker Eddy, include the fol-
lowing (1:5, 5:7): "Many are willing to
open the eyes of the people to the power
of good resident in divine Mind, but they
are not so willing to point out the evil
in human thought, and expose evil
hidden mental ways of accomplishing
misunity."

Comfort
A good cigar is as great a com-
fort to a man as a good cry to a
woman—Barney's, II, by E. G.
Bulwer-Lytton, 1845.

Cranbrook News

By ROBERT WILSON

Cranbrook's new system of in-
tramural athletics was inaugu-
rated last week. Forced by transpor-
tation conditions to call off
athletic trips and away-from-
home games, the school has adopt-
ed a schedule of inter-house
competition. The three dorms,
Stevens, Page and Marquis, are
represented, and the day boys have
been divided into two groups, the
Pioneers and the Towers, follow-
ing an old Cranbrook tradition.

These five teams meet each other
in rotation every weekday after-
noon in three contests—two touch
football and one soccer game. The
standings are scored by points, a
victory constituting two points
and a tie one. After the first
week's competition, Stevens Hall
had jumped into a substantial early
lead with 15 points.

See Other Show
Emil E. Liers presented a
unique and interesting program in
the Cranbrook auditorium last
Saturday evening. Mr. Liers, the
"Older Man," brought to the stage
his retinue of trained orator, and
showed motion pictures of the

Not So Much Water In the Great Lakes

Harley F. Lawhead, of Detroit,
party chief for the Great Lakes
Survey gave an interesting talk
Tuesday before the Exchange
Club. He was introduced by
Lawrence Smith. Lawhead showed
various charts of the lakes and
pointed out that they are relative-
ly shallow. A giant cube a little
more than 17 miles on a side could
hold all the water in the Lakes,
it was said. The area is slowly
tipping up on the northeast, he
said.

by making my wartime trips in
"MID-WEEK"

A little change in your travel habits makes a big difference in wartime transportation. By taking your trips on mid-week days—Tuesdays, Wednesdays, or Thursdays—you avoid week-end crowds. And you save a seat for a fighting man or a war worker—week-ends are often the only time he can travel at all. You'll find it wise, also, to skip holiday trips.

Under present conditions you may be inconvenienced on occasion but you can make things easier and simpler if you'll get tickets and information in advance—be prompt at terminals and rest stops to save precious minutes now that wartime speed is reduced—and take along less baggage than usual. If everybody helps there'll be no "bottlenecking!"

GREYHOUND LINES

SERVE AMERICA NOW
ON YOU CAN SEE AMERICA FIRST

TO ALL OUR CUSTOMERS:

The price of electric service is low. It is one of the few things about the house that cost less than they used to cost. Twenty years ago the average price was 5.79 cents; today it is 3.16 cents. That is nearly half price—a bargain sale every day.

There are many reasons why electricity is cheap. Our power plants are more efficient than they used to be. Our customers have helped to reduce prices by using more electricity—for better lighting, for cooking, for heating water, for dozens of jobs. We have learned how to do our part of the work better, have thought of many plans to save time and money, like the two-way radio sets for our trouble crews, and so on.

So there have been repeated rate reductions—right in the face of rising prices for almost all of the things which we have to buy to make electricity. It is a record of good service and of lower and lower rates, of which we are very proud.
