

Hersey Appointed Building Inspector

F. Scott Hersey, well-known Birmingham builder and a village commissioner from 1927 to 1930, was named City building inspector this week by City Manager Donald C. Egbert.

He replaces C. Leland Gunn, who resigned recently to take a place with the War Department.

Hersey served on the committee which helped prepare the City's zoning code, so is familiar with its details. He will also check zoning matters, smoke ordinance violations and act as sanitary inspector.

At the end of the war, he will probably resume contracting for Gunn, will be eligible to return to this job.

A TRIBUTE TO A NURSES' AIDE CAP

It's the hat I'm wearing. It gives me a glow—for it's the best hat of all. In my day I've worn handsomer ones. A Duche, for instance, trimmed with exquisite French flowers whose naturalness fairly breathed their own scent, so true they were. An Agnes model with long curling feathers—a John Fredericks of lush fabric, each curve fitting the head, thus and so! These hats went to smart places, in gaiting and laughter. Those were the care-free days!

But these are different days, and this hat is altogether different. It is worn daily but never goes out. It mingles with people utterly without caprice. It cost nothing, but it was earned. It has no beauty save its simplicity.

It is only a cap—a simple blue washable cap, unadorned except for a tiny cross worn right in front of its upturned brim. It tops a blue denim uniform on which is worn the Red Cross Nurses' Aide pin.

These were merited through volunteer hours caring for the sick in hospital wards, in stretches of time spent standing beside the suffering. Overtaxed nerves have found time to say, "We are so very grateful." Fevered lips have murmured "God Bless You."

Proudly I don my new fall hat. Happily I wear it. —L. D.

FUEL OIL LETTER

(Continued from Page One)

Will divide the heating season into two periods to enable home heating oil consumers to budget their ration accurately throughout the winter, according to information received by J. William Torrence, local oil dealer.

Coupons numbered one to five, will be issued for specific periods, and will be valid only in those periods. However, a provision for advanced and delayed use of coupons will permit consumers to adjust their ration to unusually cold spells within an period.

Plan Garden Space For City Employees

City employees are looking forward to bigger garden projects next year. Monday night, the Commission OK'd the drawing of several acres of land on the 66-acre former farm on which the sewage disposal plant lies. And City employees will be allowed to use it. The Commission discussed the possibility of allowing the public to use part of the land if requests come in.

The soil will be turned under this fall, as is proper for all land which has not been worked recently.

More than 100 pounds for every person in Nebraska was collected within three weeks during the Statewide "prairie fire" scrap drive, which netted 65,000 tons of scrap.

In 1917 and 1919 the United States built a total of 1,299 ships with categories. By December 31, 1942, we expect to complete 2,200 merchant vessels and 700 smaller craft, altogether, more than 2 1/2 times within a two-year period; the tonnage of ships built during the three-year period of World War I and after.

Mayor Proclaims Scrap Harvest

WHEREAS many communities of Michigan are setting aside Oct. 5 to 17 for a scrap metal harvest, to be observed throughout the State; and

WHEREAS this has been done in response to an urgent appeal from Donald Nelson, War Production Board, at Washington, and high officials of the Army and Navy; and

WHEREAS many steel furnaces and arms plants may be forced to close this winter, thereby leaving our soldiers and sailors as well as our allies with insufficient weapons, unless the citizens of this city, state and nation rally to provide more scrap metal for a winter reserve;

THEFORE, I, John E. Martz, Mayor of the City of Birmingham, do ask all residents of this community to participate in the observance of the schools' Scrap Metal Drive and help thereby the men of our armed forces, in their fight for our freedom.

To which I pledge my hand and seal.

JOHN E. MARTZ

Expect All-Purpose Ration Books To Be Ready in Time for Christmas

The first of the Nation's all-purpose ration books, designed to provide a single coupon rationing system for use of the consumer, will be ready in time for Christmas, according to various grades and kinds of a general type of commodity. The book is adequate for rationing of at least two major groups of commodities for a minimum of six months.

May Be Distributed Before Christmas

One hundred fifty million of the new books will be printed in the next few weeks, at all distribution points when they are handed out to America's 132,000,000 people. The distribution will take place as soon as the printing job is completed, probably shortly before Christmas. The consumer will obtain his new book on the basis of his previous registration for War Rationing. The sugar ration book book, an adult representative of a family group, may apply for books for all members of the family by presenting all the sugar ration books of that group. Consumers' books of their size, ration books as they are used, will be affected in any way by the new coupon.

Values will be assigned to the new books, both as to commodity and unit value as sugar rationing.

Same Size As Sugar Book

Specifically, the new Ration Book Two's issue No. 1, having been issued for sugar. It measures about 12 by 5 1/2 inches, approximately the size of the sugar book, and has a heavy manila cover with coupons printed on safety paper to safeguard against counterfeiting.

Mr. Moore

During the last war we built a total of 14 light tanks, weighing 7,142 tons each. Light tanks today weigh almost twice as much, heavy ones around 30 tons, and they now cost \$1 a pound to build.

Show How Company Saves All Scrap

A film showing the thorough steps taken by Western Electric to salvage every scrap of waste material was shown at the Exchange Club Tuesday by Jack Courtney, a commercial representative here for the Michigan Bell Telephone Company. Even the smallest item becomes important when multiplied by millions, it was pointed out.

FAIR

(Continued from Page One)

recipients to economic collapse—Mr. Harold R. Chapin, Mrs. Edward W. Brehm, Mrs. William MacCallum, and Mrs. Durwood B. Gamble were in charge of the booth.

Men's Handicraft

A great deal of interest was evidenced in the men's handicraft exhibit—particularly in such things as the model boats made by Karl Lutz, the wood work done by Clayton Walk and metal work by Bremner Jackson. Much of the handicraft illustrated the possibility of make-over, such as the women's suit to which was pinned the following note: "This suit belonged to Walter L. Fry, Jr. before he went into the army, where he gained so much weight that he outgrew it. He gave it to his sister who has made it over and now it's a 'trend of her handiwork'."

Much of the time a crowd was gathered around the Scout exhibit, showing work done by boys and girls of the organization. Responsible for this booth were Carl Hilly and Mrs. Edward Ruslander, assisted by Mrs. William J. Mahoney, III, Mrs. Andrew Watson, Mrs. J. E. Brumbrum, and Mrs. E. J. Brumbrum. Next to the Scout booth was the "Bagmaster exhibit," where Mrs. John R. Omond, Mrs. George W. Patch, and Mrs. Cassius H. Hill were kept busy answering questions.

Thrift Fair Interesting

One particularly interesting booth, selling "thrifts" at 50¢, was operated by a large white summer squash field with fruit singly or in bunches. Mrs. J. C. Green, filled with Mrs. J. C. Green, completing the arrangement of the booth. The other side of the table on Sunday evening, 11:15 to 11:30, the Bloomfield Hills Horticulture Society exhibit was auctioned off by William Spencer, Sydney W. Killian, and Magdalen of the booth.

The Exchange Rotary and Lions club, who donated money for the floor prices and also money to go directly to the Army and Navy Relief fund.

Baked Goods Aides

The baked goods sale proved to be one of the most successful phases of the whole fair. Mrs. Corinne Harper was chairman and assisted her were: Beeler, Mrs. Fred Sanders, Mrs. C. High Whitelaw, Mrs. Austin Anderson, Mrs. Rayson Vailo, Mrs. Frederick J. Booth, Mrs. S. G. Gibrath, Mrs. J. E. Lee, E. Mrs. J. E. Lee, Mrs. J. E. Lee, Mrs. H. Rose Mack, Mrs. James R. Mack, Mrs. W. E. Williams, Mrs. W. A. Stimp, Mrs. Earl A. Thompson, Mrs. Frank Robinson, Mrs. Frederick G. Weed, Mrs. George W. Reed, Mrs. A. W. McCalmont, Mrs. J. Robert Mosley, Mrs. Donald G. Eade, Mrs. Harold H. Helms, Mrs. Jasper B. Reid, Mrs. Harrison E. Thurston, Mrs. Frank H. Mott, Jr., Mrs. Thomas A. Nalle, Mrs. Harry C. Odey, Mrs. Leona C. Daily, Mrs. Frank H. Dadds, Mrs. Herta A. Manly, Mrs. Jonathan M. Ball, Mrs. Robert M. Ball, Mr. Charles J. Plummer, Mrs. E. J. Anderson, Mrs. Edward Porter, Mrs. John F. Horton, Mrs. Len. B. Mack, John H. Blosser, Mrs. Nancy Whiteless, Martina McKinney and Nancy Ball.
