

Men in Service

Editor's Note—Men in the armed forces, and parents, are invited to send us news of the boys and their whereabouts. Service men are interested about the country, are hungry for news of their friends. Even the address of a newly-located man is of interest.

(Continued from page 2, part 2)
HOME FOR VISIT
Pfc. Robert J. MacGregor, son of Mr. and Mrs. Joseph MacGregor, 468 Ann street, has been home on furlough. He is a member of the chemical warfare unit at Gowen Field, Boise, Idaho.

AT EXECUTIVE SCHOOL
First Lt. Martin L. Buisson, former lawyer, is one of hundreds of executives of specialized businesses and industries now being trained at the new Air Forces Officer Training School, Miami Beach, Fla. To direct vital administrative and supply operations of the rapidly expanding ground forces.

The Air Forces Officer Training School was established specifically for the purpose of enlisting the services, as commissioned officers, of civilian specialists. Its training program will provide Army fliers with expertly directed ground support and relieve Air Forces Pilot Officers of non-flying duties that have kept them rounded.

As a civilian, Lt. Buisson lived at 912 Westwood drive, Birmingham, Mich., where his wife now resides.

HAS FURLOUGH
Gordon O'Kelly has returned to the Great Lakes Naval Training Station after spending a nine-day leave with his mother, Mrs. Rena O'Kelly, of Ridgedale avenue. Gordon has been in the Navy for a little over five weeks.

NAVY RECRUITING
More Southern Oakland County men enlisted in the U. S. Navy last week than during any other seven-day period during the past four months. Yeoman Leonard

L. Lewis in charge of the Navy Recruiting Station in the Royal Oak Post Office reports that 31 men volunteered, ranging in age from 17 to 43.
From Birmingham are Kenneth John Biel, Phillip A. Jones and Thomas H. Griffin.
For the first time since last Spring the Navy is accepting men who play hand instruments.

Qualified musicians from 17 to 50 may obtain second class petty officer ratings immediately upon enlistment. Especially desired are men who play cornet, clarinet, trombone, French horn, oboe, bassoon, drum, saxophone, flute or piccolo.

An appeal for more men to train as operators of the Navy's secret aircraft locator device also has been issued. Yeoman Lewis emphasizes the advantages now available for rapid advancement among radio technicians.
"A man with a good general education who is not in reality a radio amateur or engineer can still qualify for this rating despite his lack of technical knowledge. This field is an ideal bracket for men with a strong academic background or those who have had mathematical training. This should be of interest to college men with no particular trade who would otherwise be enlisted as apprentice seamen."

NEED CHAPLAINS
Intensification of the procurement campaign for chaplains to meet spiritual needs of the steadily expanding Army was ordered today by Major General H. S. Aundam, Commanding General of the Sixth Service Command with headquarters in Chicago.

BARS DOWN
Lieut. H. O. Nielsen, recruiting

officer, U. S. Coast Guard, room 111 Federal Building, Detroit, announces that the bars are down again and the boys can once again enlist in the Coast Guard. Due to a rush on the recruiting station the lists were closed for a short time.

GOING IN AVIATION
Petty Officer Stuart Adams left last week for the University of Georgia at Athens, Ga., to attend the Naval aviation school. His wife, the former Virginia Homer, and is in charge of a new squadron at Merced. The Air Force is the best branch of the service, in the opinion of Lt. Adams, who was graduated from the engineering school at the University of Michigan in 1940.

HAS INTERESTING JOB
Lt. Kirk Martin, Air Force, son of Mr. and Mrs. John E. Martin has for several weeks been participating in special activities at various airfields in the southeastern district. He was for a time engaged in experimental work at Elgin Field, Fla., which is the home of all types of planes and is known as the "Wright field of the South."

Writing of Secretary of War Stimson's recent visit to Elgin Field, Kirk reports:
"We had a big time here yesterday. Secretary of War Stimson paid us a visit and we gave him a demonstration of our various kinds of attacks. We made a display against water targets, tanks, etc. with dummy bombs. We flew in at ground level and hit the targets very often."

"They have a lot of new stuff here—most interesting inventions and developments which I had best not write about."
"While at Elgin Field I have visited several times with Ensign 'Bill' Biggers, of Birmingham, who is an instructor at the nearby Pensacola Naval Air Base.

"One of my Texas flying friends now is piloting a B-25 in Egypt. I received a letter from him today and it is very optimistic. He arrived in Egypt just in time to get into quite a scrap and saw considerable action. He felt we were doing very well and had definitely established air superiority in his section."

"I'll be going back to my squadron at Waterbury, S. C., tomorrow."

ON LEAVE
Richard N. Rohrer, a mechanic with the Navy, stationed at Great Lakes training station, is here on a nine-day leave, visiting with his sister, Mrs. H. W. Terry, 212 Brownell.

PROMOTED
PORT CLUSTER—George William Averill, 969 Rivewood, Birmingham, has been promoted to the rank of Pvt. 1st Class in the Post Headquarters

Section here. His promotion was made upon the recommendation of his company commander in view of his demonstrated interest, initiative and ability in the work assigned him.

ON FURLOUGH
First Lt. Allen Reid, son of Mr. and Mrs. J. A. Reid, is home on furlough this week from Merced, Calif. Lt. Reid, who is an engineering officer in the Air Force, was just recently promoted from second to first lieutenant and is in charge of a new squadron at Merced. The Air Force is the best branch of the service, in the opinion of Lt. Reid, who was graduated from the engineering school at the University of Michigan in 1940.

East Of Birmingham
Poplin Stinch and Chatter Club will meet at the home of Mrs. Stanley Smith, Crooks road, next Wednesday evening.

Mrs. Carl Walker, of 18 Mile road, is entertaining the War Relief ladies today at her home and will serve a pot pie luncheon. Several of the ladies are helping to make lunches at the town hall Friday.

Guests of the Albert Johnsons last week were Mrs. Johnson's sister, Mrs. Lyle Stage, of Sturgis, and a nephew, young Walter Hill of Melbourne, Australia, who came here with his mother and sister.

The Hills of Australia, the Pennings of Birmingham, the Johnsons of Birmingham had breakfast at Sprangdale Park Sunday.

Schoolmaster—If Shakespeare were alive today, would he still be regarded as a remarkable man?
"Pop!—I'd think so, for he'd be over 300 years old."

STATE OF MICHIGAN—In the Probate Court for the County of Oakland, Michigan, on the 14th day of October, 1942, at the City of Pontiac, in and to the said County of Oakland, A. D. 1942.
George H. Hoadley, Arthur E. Moore, John C. Probst, and the Matter of the Estate of William Morris Farmer, Deceased.

It is further ordered that public notice thereof be given by publication of this order for three consecutive weeks previous to said day of hearing, in the Birmingham Eclectic, a newspaper printed and circulated in said county.

Attest: My hand and official seal this 14th day of October, 1942, at Pontiac, Michigan.
ARLBER MOORE, Judge of Probate.

How to make your ELECTRIC SERVANTS work for you more economically

Measured in terms of convenience and comfort, in hours of time and labor saved, your household electric service is one of the cheapest things you buy. Many of your electric servants can be operated even more economically by following a few simple rules:

YOUR ELECTRIC RANGE. Conserve electricity by finishing surface cooking on "low" or stored heat. Plan economical oven meals (cook the entire meal at once). Use very little water in cooking (foods come up to "steaming" point more rapidly). Use the thrift cooker on your range for low-cost casserole dishes. Avoid wasting heat by choosing flat-bottomed utensils just big enough to cover the heating unit. Always keep lid on utensils.

YOUR REFRIGERATOR. A blanket of ice around the coils of your refrigerator actually makes your refrigerator work overtime—increases operating cost. Defrost it regularly for economy's sake. For the same reason, don't put hot foods in the refrigerator to cool. And don't open the door oftener or longer than necessary, because this lets the heat in. Locate your refrigerator away from heat sources—and not from the wall an inch or two to allow air circulation. Avoid overcrowding the refrigerator for efficient operation. And cover all foods so that moisture won't collect on the freezing unit.

YOUR SMALL APPLIANCES. Don't leave appliances turned on when temporarily not in use (your electric iron or toaster, for example). Pull the plug, and connect the appliance again later when you are ready to use it.

THE DETROIT EDISON COMPANY

HARRY F. KELLY

BROUGHT BUSINESS EFFICIENCY INTO THE DEPARTMENT OF STATE

When Harry F. Kelly first took office as Secretary of State, January 1, 1939, the department was obsolete in its methods, dilatory in its service, hog-tied with red tape! Before his first term was over, Harry F. Kelly had streamlined the entire department, upped its efficiency month after month, and brought its economy to a high point.

Today, the department, doing an annual business in excess of \$80,000,000, is a model of ably directed operation. Its 9 divisions and 170 odd branches function with the precision of a fine watch. It operates 24 hours a day, 365 days a year, in its Registration and Title Division to benefit the police and public alike.

To Harry F. Kelly, and to him alone, goes the entire credit for this amazing transformation! You can depend on his achieving the same high degree of efficiency, in all state departments, when he is elected Governor of Michigan on November 3rd.

HARRY F. KELLY

Republican Candidate for Governor

This advertisement is one of a series sponsored and paid for by citizens of this county to make you better acquainted with Harry F. Kelly.

What's in a Name?
From the French we get such shifty words as "sabotage" and "saboteur," "camouflage" and "camoufleur." Well to remember, therefore, that "courage" is the same in both tongues.—Louisville Courier-Journal.
Maybe
It costs so much to make history that we are in favor of abandoning it. The world could get along quite nicely thank you, without history.—St. Louis Star Times.
