Nancy Lighter, Former Resident, Will Wed Sept. 8

Captain and Mrs. Charles E. Lighter, of Evanston, Ill., announce the engagement and approaching marriage of their daughter, Margaret Jane, to Ensign Soule Tryon Blitting, of Grand Haven, Mich., son of George L. Blitting, also of Evanston.

Margaret is the niece of Miss Jessie Winter, of Bloomfield Hills, with whom she lived while attending Brookside and Kingwood schools. Later she graduated from Northwestern University where she was an Alpha Phi Omega member and a member of Beta Theta Pi fraternity. He is stationed at a Naval Air Base near Boston.

The wedding date is set tentatively for next Tuesday, Sept. 8, and will take place at Boston, Mrs. Lighter, who is in charge of the Marine Corps recruiting for the Chicago and Illinois district, will probably be unable to leave Chicago. The young couple will live near Boston, future orders permitting.

Army Nurse Writes Of Overseas Trip

First things are always of the most interest and in the following letter we have four firsts—for Lt. Frances Stanley was the first girl in Birmingham to join the Army Nurses Corps, first to be stationed in an army camp in the United States, first to be sent overseas for duty, and now we have her first hurried letter home, written as soon as she arrived in England.

Aug. 19

Dear Mother—

I suppose you are wondering when you are ever going to hear from me, but we just arrived, shortly after midnight. I will send you a cable sometime today, if possible.

We had a wonderful trip even though it did get quite rough. The water came up on the decks but we got top sick.

We lived nine in a stateroom—three bunks deep and mine was a top deck, the one next to the porthole. Evertime the boat rocked or turned, I thought I was going to roll out, but I was not. I had cold salt water in the taps and I thought I was trying to make a bath out of rain instead of soap so when you take a good hot fresh water bath, think of me (or when you eat chocolate cake).

The food on the boat was wonderful but now we have only food from this country which is heavily rationed.

We had an air conditioned tent to sleep in at the Port in the United States after hiking so far with fat packs in the hot sun!

We are collecting mail now, so I will write later. Don't worry. I'll write later. Don't worry.

Miss Lambie Takes Radio Defense Course

Annette Lambie, daughter of Mrs. Lambie, is on the ground floor, as it were, in one of the newer women-in-service activities. This summer she took a 10-week course in radio engineering, offered by the government at Wayne University. Now she is awaiting orders to go to Chicago for another 12 weeks of study, this time, however, on salary. At the end of the course, girls graduating will probably replace signal corps men in the United States Army camps.

This is something entirely new to women, but a profession to which they seem to adapt themselves quickly. The only requirements for the original course is a background of trig and physics. The class consumes approximately 35 hours a week, so it is not something that can be done during one's spare time.

Annette was graduated from Baldwin High School and was in the middle of her junior year at the University of Michigan when she decided to try her luck at radio and communications work.
