An old friend... a reliable, economical servant... today your Gas Range assumes a new role. It has a new job to do—one of the most important of them all—the job of feeding your family for Health and Strength for the duration.

A little care will go a long way in providing efficient and economical service from your Gas Range... will add years to its life.

- A Few Simple Rules for Gas Range Care**
1. Use your Gas Range as you need... but make it serve you every cooking minute.
  2. Wash cooking temperatures. Over-coasting or over-baking wastes fuel as well as food. Over-boiling wastes heat and kills health-giving vitamins.
  3. For greater efficiency use flat-bottomed cooking. Remember—GAS, America's preferred cooking fuel, is also vital for war production. Do your part by using it well.

# ALTES Lager

in the new QUART bottles

So get that big bottle habit! Split each one with a friend or member in the family. It's just like "doubling up" in motor cars, to save gas and tires.

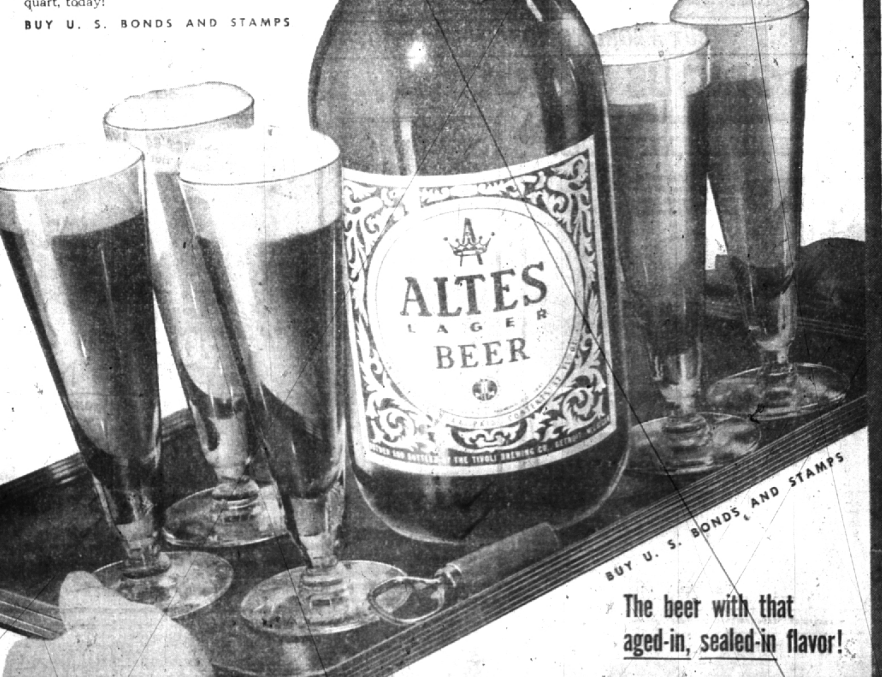

And you'll find it easier now to keep supplied with Altes bottle beer. Restrictions on the use of metal caps have been met partially by introducing a much larger bottle—the quart—which lets 3 caps do the work of 8!

What's more, Altes costs less in the big bottle, and you can get more of it in your refrigerator!

One thing sure—you'll never have any trouble finding someone to share Altes with you! This superb brew is made in sealed vats—aged in air-tight casks. Nothing harmful can get in—all the delicious flavor is thoroughly protected.

Remember—no other beer can offer this. So ask for Altes in the war-time quart, today!
