Above All-We're in the service of those in Service Men and Women in the Armed Forces and in War Plants Have First Call on Greyhound Today!

Today it's service for the Service first
— for all those, in uniform or workclothes, who are actively contributing to
Victory over the Axis. Transportation
for these essential travelers is Greyhound's first responsibility under present
conditions.

Carrying selectees to examination cen-ters—soldiers and sailors on leaves or furloughs—troops on maneuvers or energency moves—men and women to their vital work in war plants—this is Greyhound's major wartime job.

And this job is a big one—measured in numbers of passengers or areas served. For Greyhound reaches directly more war plants, military camps, shipyards, air fields, navy bases, big cities, cross-roads towns, farm centers than any other transportation system.

If occasionally you are inconvenienced or delayed, please keep on taking it with a smile. This isn't some other fellow's war — it's yours and ours and we all have to do everything we possibly can to help win it.
