Puts Eggs in Oven To Hatch Pheasants

JACKSON—Mrs. W. Carlson turned her oven into an incubator for a few hours and hatched out four fluffy pheasant chicks. Mr. Carlson found four eggs in a nest after the mother hen pheasant had been killed by a moving truck. Mrs. Carlson placed the eggs in her oven, and within a few hours four tiny chicks were scratching around in the oven. The local conservation officer took them to the Jackson county pheasant rearing field, where the orphans are now reported "doing nicely."
