

ONE DOWN - TWO TO GO!

The little sawdust Caesar has had the stuffings knocked out of him at last! Score one for the democracies! But let's not permit enthusiasm to be blinding. Hateful as Italian fascism has been to the people it subjugated, it held fast for twenty-one years; crushed as it may now be, it does not provide the end of our fight.

Hitler and Hirohito with their own brands of fascism—by any name—are still strong enough to call for our unhalting vigilance turning out the machines of war; transporting more and more men to every front!

Thousands of American lives will yet be lost in the battle to break the enemy. Mussolini's end is good news—but we've got to keep going full speed ahead until the better news . . . of the unconditional surrender of the entire "Axis" can be pronounced to the world.

To hasten that day, go about your every war task with increased determination; better your purchase of War Bonds—even to a point of sacrifice. For Mussolini may have cried "Uncle," but the battle is barely one-third won, with ONE DOWN—TWO TO GO!

BACK THE ATTACK WITH WAR BONDS
