

LWV Turns To Labor Topics

The Birmingham League of Women Voters voted Tuesday to discuss the national and international labor movements. Two outstanding speakers in labor circles will be presented to the community in January under the League's auspices. Dates for these events will be announced soon.

Mrs. Alfred McKeown, chairman of the labor relations committee, together with Mrs. Herbert Royal and Mrs. E. J. Bemis presented the Tuesday program. Mrs. Bemis is a member of the women's advisory committee from this area for the labor production division of the WPB.

Mrs. R. L. Yonker, president, announced plans for the State "Round Up" to be held Jan. 11, in Flint. She cordially invites Birmingham women and new members of the League to attend this with her delegation as a means of learning the scope of LWV activities and influence.

BREAKS INTO LOCKER

Last week somebody broke into a boy's locker and made off with a pair of gym shoes and overalls. The theft took place at Barnum school.

Want Ads will do it.

KIDS' "ANNUAL XMAS SHOW"

ADVENTURE

(Continued from Page One)

beyond criticism and I have no doubt she would be with me still had not the cat intemperately had kittens in the laundry basket. The cat, with feline discrimination, postponed the event until the last week, and her disappearance remains a mystery. I believe the cat's disappearance was due to a part with specimens from a rather fine collection of size 5 1/2 shoes, in various quads and old-fashioned designs, had something to do with it. Or perhaps it was the worst condition of my second best coat? Ah Claire! Will I ever know what broke the bonds between us?

Advertising Does Pay!

It is futile to live in the past. Apparently I come of an old hard way and have to be clonked on the head by reality to acquire even a rough sort of wisdom. I feel capable now of dealing justly with the future, come what may. My only current perplexity is choosing between the applicants for my Eccentric advertisement of Box 103.

There is "Anxious to Please," who would do very nicely. She is a Japanese kimono (unacceptable) and a "So So" and a Dinah Shore voice. She is willing to increase her vitamin-tablet dose (at my expense) and is patient and uncomplaining. But she is nervous about steps and due to installing the elevator.

There is "Older Woman," who can give me good references, but would expect to know about me in return. Well, that's that.

There is "Younger Woman," who would expect to know about me in return. Well, that's that. Her husband will gladly take his meals at the D. A. C. I'm inclined to snap at her but I've provided my husband will let me join him for a decent meal from time to time. A. A. L. D. is a bit of a running, but she has been with the same family for ten years. Me, I'm not in the market for the flimsy type.

"Truckman No. 20's" heart was so torn by my pathetic and unprofitable plight that he was unable to board. He offers to skip the milk coat (has his own) and the taxi (he's a driver) but in return he would expect Mondays, Thursdays, and Sundays off. Truckman No. 20, would you reconsider?

So Many Questions. They Ask Birmingham! has a curious approach that I'm inclined to distrust. "What size is the coat?" Do accessories go with it? "Are the uniforms cotton?" (No, M. M. skin.) They are genuine leopard skin. "Will you send a typical week's menu?" "Please include a picture of your husband with an age and height." (Hah! No weight there's one missed.) "I would at a damper during our mad glad evenings of savage enjoyment."

Me, I'm tempted to ask that a jewel "Dispersed fully" now. In every respect she's tops. In the place in her opinion mink rhymes with skunk. She would at a damper during our mad glad evenings of savage enjoyment.

'Gremlins' on Our Side

Claire loved nature, she doted on the children she was charmed with our late breakfast hour. Claire was happy here for two whole weeks, and her disappearance remains a mystery. I believe the cat's disappearance was due to a part with specimens from a rather fine collection of size 5 1/2 shoes, in various quads and old-fashioned designs, had something to do with it. Or perhaps it was the worst condition of my second best coat? Ah Claire! Will I ever know what broke the bonds between us?

a school building program that will put the buildings in the southern area of the Birmingham District. The District No. 3 under consideration for annexation Monday, will be an independent entity, inasmuch as its proximity to Birmingham makes it desirable to have it independent of the Birmingham District. The Birmingham District, stores and amusement places, as well as a general social and recreational center.

This point was also stressed by Ernest W. Seasholtz, Board member, when investigations supported Mr. Seasholtz's arguments along these lines. They also pointed out that annexation will mean no immediate reduction of students from District No. 3, because they all now attend school here.

Wyle E. Groves, another Board member, used a large chart to show the financial angles of the Birmingham District. He said that Southfield District No. 3 has no outstanding debt, and has \$10,000 in its treasury, which would be turned over to the Birmingham District should the annexation carry through. The Birmingham District's total income from the new District amounts to \$32,200.28 annually, the Birmingham District's total income from the new District amounts to \$32,200.28 annually, the Birmingham District's total income from the new District amounts to \$32,200.28 annually.

Apparently it takes all kinds of people to build a ship, for at the Charleston, S. C., Navy yard you see E. S. David, Jr., left, 28 years old, 4 feet 2 1/2 pounds, and at right his brother E. H. David, also 4-2, and weighing 55 pounds. Between them stands shipyard foreman C. H. Townsend at 6-3. (U. S. Navy photo.)

Lights Flicker - Nearly Out-Yule Tree Almost Approved

For a few minutes Monday night it appeared as though Birmingham's municipal Christmas tree would not be lit. The tree, which is a 15-foot live tree, was being moved to the city hall by a truck. The tree, which is a 15-foot live tree, was being moved to the city hall by a truck. The tree, which is a 15-foot live tree, was being moved to the city hall by a truck.

As the discussion drifted toward abandoning or slacking the tree, Commissioner Milton E. Chandler pointed out that the tree, which is a 15-foot live tree, was being moved to the city hall by a truck. The tree, which is a 15-foot live tree, was being moved to the city hall by a truck. The tree, which is a 15-foot live tree, was being moved to the city hall by a truck.

Finally, a motion was passed. The tree, which is a 15-foot live tree, was being moved to the city hall by a truck. The tree, which is a 15-foot live tree, was being moved to the city hall by a truck. The tree, which is a 15-foot live tree, was being moved to the city hall by a truck.

90-Day Ban Laid On Dr. L. L. Marion

Dr. Leland Marion, director of the Christian Temples here and in other cities, has been given a 90-day ban from the city of Birmingham. The ban is a result of a decision by the city council, which was made last week. The ban is a result of a decision by the city council, which was made last week. The ban is a result of a decision by the city council, which was made last week.

Annual "Kid Party" Announced by Holah

In keeping with his annual custom of giving youngsters in this area a pre-Christmas party, Holah, manager of the Birmingham Theatre, this week announced the "Kid Party." The party, which is a 15-foot live tree, was being moved to the city hall by a truck. The party, which is a 15-foot live tree, was being moved to the city hall by a truck. The party, which is a 15-foot live tree, was being moved to the city hall by a truck.

This "party" will be held Saturday afternoon, Dec. 18, from two to four-thirty o'clock, while it is going on the regular features advertised. "Mr. Lucky" and "The City That Stopped Hitler," will be the main attractions. The party, which is a 15-foot live tree, was being moved to the city hall by a truck. The party, which is a 15-foot live tree, was being moved to the city hall by a truck. The party, which is a 15-foot live tree, was being moved to the city hall by a truck.

Mr. Holah's program for the party includes ten cartoons, including "My Pop, My Pop," "Shank Snook Snook," "Porky's Pirate," "Who's Who in Zoo," "Porky's Cafe," "Saps in Chains," "Saddle Sills," "Casey's Case," "Thapsod in Rieves," and "Wa-bbit Trouble," plus a Hopalong Cassidy outdoor action feature, entitled "Outlaws of the Desert."

Might Cash In At Hollywood "One can hardly say that Betty's face is her fortune." "No, but it draws a lot of interest."

Working Courses, Too

The auto mechanics course was first started to take care of the 50 or 60 per cent of the boys who do not go to college. Now, it is of great value to boys entering the service. It is a trade course, and the boys work either three hours in the morning or three hours in the afternoon.
