GETTING UP NIGHTS

Makes Many Feel Old

Do you feel older than you are or suffer from getting up nights, backache, nervousness and leg pains? Do you have dizziness, swollen ankles, rheumatic pains, burning, scanty or frequent passages? If no. send for FREE BOOK, P. O. Box 701, Department 185, Pontiac, Michigan.

How can I save

-transportation?

-manpower?"

Answer:

SAVE ELECTRICITY!

You can't see electricity, but if you could you'd discover that many things go into its manufacture... coal and transportation and manpower and the tremendous energy of giant turbines, plus various critical war materials.

critical war materials.

Today the conservation of all these things is vitally important in winning the war. You save half-a-dozen at once when you save electricity. For the raw materials used in making electricity are essential war materials . . . needed to keep America's war production moving at top

speed.

Remember this when you snop on a light switch. Use only the lights you acturally NEED. Be careful in your use of electric appliances and equipment. There is no shortage of electric generating or distributing facilities in this area, but the Government cake everyone to save VOLUNTARILY, to conserve critical resources. Even though it is not rationed, saving electricity is the patriotic duty of every American citizen today. The Detroit Edison Company.
