

Christmas Bells Ringing Out At Pierce School

There was the usual yuletide bustle around the building. Many rooms exchanged names for gifts. A tour of the building would introduce the visitor to many novel ideas carried out by borders, window decorations, original clay creations and Christmas tree trimmings.

Some unusual ones are: Room 1 made an interesting Christmas border from colored corrugated cardboard. Miss Olsen's fifth graders made lovely winter scenes using spatter paint and colored cut paper. Santa Claus and his eight tiny reindeer were attractively molded from clay by Miss Van Wagner's second graders. Mrs. Beech's room decorated the tree with colored string. Mrs. Hart's fifth graders traveled the world learning interesting holiday customs of other lands.

The third grade under Miss McCoy's direction have been writing original poems. Here is one planned by the entire group.

Christmas
Snow on the ground,
Wind in the trees;
I hear a sound
Like a Santa Claus Sneeze.

Up on the roof
I hear a knocking,
Like Santa Claus coming
To fill my Stocking.

On Wednesday afternoon, each room will hold its party and distribute the gifts. After bidding everyone a Merry Christmas and a Happy New Year, school will be dismissed until Jan. 3rd, 1944.

Odd bits of apple, not enough for serving, can be added to cereals, salads, and puddings.

Do you know— YOUR ELECTRIC RANGE burns coal!

Thousands of Detroit Edison customers who enjoy the convenience and cleanliness of electric cooking will probably be amazed to learn that the spotless white range in their kitchens is a "coal-burner." But it's true... even though the coal is burned in a Detroit Edison power house miles away.

The Government asks everyone to save electricity to save coal. You can conserve in the operation of your electric range by thrifty use of the deep-well cooker, by planning more "all-in-one" oven meals, by turning the switch to "LOW" heat after foods have come to a boil, and by utilizing the stored heat of the heating unit for cooking.

Electricity is not rationed and there is no shortage in this area. But the Government asks you to conserve wherever you can, as much as you can. The Detroit Edison Company.

WAR PRODUCTION BOARD

Baldwin Reserves Win from Farmington

Three victories and no defeats is the record so far for the Baldwin Reserves after their 46-27 victory over Farmington last Friday night. The young and lanky sophomore Stan Schaefer, was high point man of the game with five field goals and a foul shot, totaling 11 points.

Bob Berges played an admirable game on defense as his guard position besides being runnerup to Schaefer by collecting nine points.

The starting lineup for the Farmington seconds was Conroy and McLean, forwards; Miller, center; Locker and De Vries, guards. Starting for the Maples were Wangberg and Cookerly, forwards; Schaefer, center; Berges and Roberts, guards.

This was the last game for the reserves until after the holidays. They will tangle with Plymouth January 4 on the Rocks' home floor.

People's Column

Continued from Page 2, Part 2) be no point in stirring up "class" friction.

The whole affair seems to be a case of exhibitionism, with a specific class of wage earner held up for ridicule. I can hardly see why your newspaper should care to support this sort of thing as it is undoing all the fine work done in Detroit and Birmingham to establish good relations between maid and employer. There is much to be said about the poor working conditions, long hours, and lack of respect and consideration that maids find in many homes. If these maids were permitted front page space, they could write satirical gossip that would put Mrs. Covney's diatribe in the shade.

Very truly yours,
Fair-play
