

GIRL SCOUTS

Council Meeting

The Girl Scout Council will hold its December meeting in the Girl Scout room at the Community House on Friday, December 10 at 10 o'clock in the morning. Mrs. Eric Hyde will report on the new camp fund at this meeting. The council is happy to welcome Mrs. Marc Patten as its newest member.

Troop News

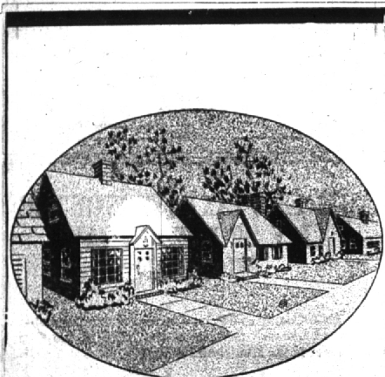

Troop 10—Barbara Carrier, who is scribe for Troop 10, extends an invitation from them to all older girls who are interested in scouting. They meet on Thursday from 7:30 to 8:30 at the Community House and their leaders are Barbara Fletcher and Betty Steffe. Most of the members are in the eight or ninth grades.

Troop 2—During the absence of Mrs. A. W. White this troop had Mrs. P. R. Shaffer as a leader. Some of the girls are busy completing work for their badge in First Aid.

Brownie Troop 19—Although this troop of 24 brownies has been organized this fall they are as happy and busy as if they had been meeting for several years. Carol Pilon had a birthday last week and her mother brought the celebration to the Brownie meeting including all the good food that makes it a real party. Pierce School is the meeting place and Mrs. A. N. Watson is the leader.

THE FORGOTTEN LIGHT

There it shines, a forgotten porch light burning all night long at someone's door. In normal times your porch light is a real convenience: It helps callers find your house number, it discourages prowlers, and it reduces accidents from falls on dark steps. The cost is only two or three cents a week—for electricity is cheap.

Today our country is at war . . . and that light burning needlessly is a serious matter, especially when it burns all night. It uses vital coal and manpower and transportation. And today our Government is asking for the most careful saving of these critical resources. It is asking you to save VOLUNTARILY.

Remember that electricity is a WAR MATERIAL, even though it is cheap and unrationed. There is no shortage of facilities for making electricity. But thousands of tons of coal per day are required for its manufacture in Edison power plants. Use it as carefully as you would rubber or gasoline or other critical resources. Power saved at home means more power for the fighting fronts. The Detroit Edison Company.

CONSERVE ELECTRICITY

Even a 5% saving in the monthly use of electric ity by Detroit Edison customers will save about

100 CARLOADS OF COAL PER MONTH

1,800 TRAIN MILES 14,000 MANHOURS

Lathrup Townsite News

by LILLIAN DIEDERICH

Lathrup Civic Association (Men's Club) met last Wednesday night in the school auditorium. The speaker was Millard Faught, well known economist and lecturer, whose articles appear in the New York Times.

His topic was "Subsidies and Their Effect." He supports subsidies only because to date, he says, nothing better has been offered. He claims the Republicans are injecting the inflation issue in order to confuse and wreck the Washington set-up so that they can come into office.

Mr. Faught stressed the fact that the task at hand is so colossal that no regime could do much, if any better. (The speaker admitted he is neither a Democrat nor a Republican in the strict sense of the word.)

Inflation would kill the sale of War Bonds, according to Mr. Faught, and in order to meet the rising prices of commodities, people would be forced to cash their bonds they have purchased. He urged everyone to write his Congressman to stifle inflation before it gets us—and to mail into Washington a sizeable meat bone.

(Editor's Note: It's still a stupid idea, and the mails are in no shape to stand this overload, as pointed out last week.)

During the question period following the talk, Ed Beyma voiced a bit of humor. He remarked that if 132,000,000 people sent meat bones to Washington that Congress would probably grind them into fertilizer and sell the stuff back to us to be used in our Victory gardens. Lathrup Civic Association will meet the third Wednesday night of each month and plans to have a notable speaker at each session.

Mr. and Mrs. Fred Lucht, of Greenwood boulevard returned from New York City Sunday. Mr.

Lucht, a member of the American Society of Mechanical Engineers, gave a talk in the Pennsylvania Hotel Nov. 30, on the "Elements to be Considered in Milling Steel with Cemented Carbide Tipped Milling Cutters." He is associated with Colony Co., Inc., as a development engineer.

Mrs. James Brown, of Greenwood boulevard, entertained throngs of bridge last week at a bridge luncheon.

Jack Bengal, son of Mr. and Mrs. Ernest Bengal, of Saratoga boulevard, celebrated his 14th birthday Sunday night, when a group of friends tendered him a surprise party. Dancing and refreshments was the evening offering. The guests included: Caroline Bates, Violet Wilson, Betty Thompson, Florence Sampson, Francis Tieman, Pat Stock, Gwen Black, Bob Dodi, Don Inman, John Robinson, Jim Firth, Dick Thomas, Bill McIntosh.

A. M. L. a ten year high school club of the Townsite, held a dance in the school auditorium Friday night. Green's band furnished the music. This was the club's first venture of its kind and judging from the attendance was a big success. Club members include: Dick Thomas, Robert Dodi, James Firth, John Robinson, Don Inman, Jack Bengal, Bill McIntosh, Dave Gahler, Mrs. Arthur Mitchell, Mrs. E. C. Dodi, Mrs. Lawrence Inman, Mrs. Michael Thomas were responsible for the success of the party according to the boys.

Corp E. H. Neizer, of Sedalia Army Air Field, at Warrensburg, Mo., is home on a 10-day furlough at the Guy S. Peppitt home, on Saratoga boulevard. Mrs. Peppitt is Corp. Neizer's sister.

Mrs. Roger Baker, of Lathrup boulevard, will be the next hostess to the Ways and Means Committee and Women's Club members on Monday, Jan. 17, at a desert bridge. Mrs. Fred Wilson, also of Lathrup boulevard, will be hostess on Monday, Feb. 21. (These two hostesses switched dates recently.)

David Redwood, director of Chevrolet Glee Club announced recently that the Glee club will sing Coast Guardsman Frank Sargent's song, "We're Gonna Win," at the E. K. O. Theatre, Detroit, on a Good Fellow's midnight show Dec. 9. As the song writer is a local boy making his mark, the Glee Club of Mr. and Mrs. Frank F. Sargent, of San Diego boulevard, we feel sure many Townsiders will want to be present.

Sufficient funds were collected from Townsiders to enable Dean McNeal to purchase 124 packs of cigarettes, 4 pounds of candy and 140 packs of matches which he and sister Nancy distributed to casualities stationed at Rommel Air Base Hospital. Good work, Dean!

Boy Scouts will again be selling Christmas wreaths this year. Every house will be visited according to Douglas Wylie, junior scout leader. Be sure to patronize our own leads.

Girl Scouts of the Townsite will put on their first Christmas play and seven o'clock in the school. Nimble fingers have been busy making pretty things for this affair for months back, and to show our appreciation of the good work we should patronize them.

Mrs. Jean McNeal, director of Red Cross for Southfield Township, has made an appeal for gifts to be distributed to soldiers stationed at Camp Custer and boys in isolated camps. Oakland County has a big quota to meet she said. The request for Custer alone is 1440 boxes, and 600 more gifts for isolated camps. None must cost over \$2 and all should be wrapped as Christmas gifts with the sender's name and address enclosed and a listing of the contents on the outside of the box. The deadline is Dec. 14. Do not turn aside this plea. A \$2 box or cash. Get in touch with Mrs. McNeal, please!

Mr. Miles W. Beatty, of Lathrup boulevard, has been transferred by his firm, the F. W. Dodge Corp., to Chicago, Ill. It is with regret that Townsiders hear of this news. We trust the Beattys will enjoy their new surroundings and not forget their many Townsite friends.

Spring Trout Planting Shows Best Results

ANN ARBOR, Dec. 8.—Newly completed experiments and data gathered during the 1942 trout season by State Conservation Department's fish division are additional evidence that planting trout in the spring makes more fish available to anglers than does fall planting.

For the latest experiments, the regulate used six spawning streams in all sections of the state and planted the same number of trout in both fall and spring. Of the brook trout 2.5% of the fall and 54% of the spring plantings was taken by anglers. Of the rainbow trout released 4.5% of the fall and 13.5% of the spring plantings was taken, and of the brown trout 6.3% of the fall and 9.2% of the spring was recovered.

Not At Heart
She touches up her hair.
She touches up her face,
She touches up her eyebrows,
Her fenderals and lace.
She touches up her thumbnails,
Her fingers, one, two, three,
She touches up her dimples—
And then she touches me!
