DRIP

DRIP

Out of the pockets of free men they come—nickels and dimes and dollars—fighting dollars.

Exchanged for U. S. War Bonds, they go down to the docks and out on the troop ships and into battle. They give our soldiers the steel and sinew that they need to do the job.

Every week you can send a few of these fighting dollars off with our boys—by putting aside 10% of your pay check each week—regularly.

And after your fighting dollars have helped win the war, they will come back to you—with interest—for War Bonds give you a better, safer return than you can get in many other places.

You will be very glad to have these War Bonds ten years from now in peace. They will help furnish your new home, educate your family,

or buy you quiet, pleasant leisure days in the peace that is to come.

If you need the money at any time before then, you can get back every cent you put in, after the first 60 days.

If you turn your spare dollars into fighting dollars by buying War Bonds on a regular weekly or monthly basis now, you are not only securing victory, but you are securing your own future—and guarding against the possibility of dangerous inflation.

How many of the dollars in your weekly pay envelope are you willing to send to the front with our men? Think it over. Every one will help shorten the war.

Try and set aside at least 10% of your pay—let Uncle Sam have your pledge.

# BUY WAR BONDS
