

**State Will Issue Shooting Permits**

LANSING—Recognizing the important contribution that victory gardens are making to the home-front food supply, the Conservation Department's field administration division is adopting as liberal a policy as the law allows in issuing permits to shoot rabbits and pheasants doing damage to victory gardens.

At the department's Lansing office continues to be flooded with urgent appeals from frantic gardeners, the department has started issuing permits without the regulation investigation that has previously been demanded. Permits still stipulate, however, that all birds or rabbits shot must be turned over to the resident conservation officer within 48 hours. They are then sent to the laboratories of Michigan State college, where they are examined to check the type of plants they have been feeding on.

The department warns gardeners that its hands are tied as far as aiding gardeners whose plots lie within city limits, and stipulates that its permits may not be construed to exceed local municipal regulations. Police of some Michigan cities, however, realizing the serious threat that this rabbit-pheasant problem constitutes to the coming winter's food supply, have relaxed local restrictions and are permitting regulated shooting of these "victory garden scavengers" within municipal limits. (Note—In Birmingham a permit must be secured from the chief of police.)

Department officials are advising helpless gardeners, whose gardens are located in areas where local restrictions prohibit shooting, that nicotine dust sprayed on plants has been found to be an effective repellent for rabbits. They admit, however, that there is no sure way of exterminating pheasants except shooting.

**CHILD HIT BY CAR**

Patricia Feehan, four-year-old daughter of Mr. and Mrs. John Feehan, of Atholse place, was struck by an automobile on Southfield at Kenwood, Saturday July 10, at four o'clock. She was taken to St. Joseph's Hospital, Pontiac. Although the child suffered severe contusions of face and body as well as shock, the X-rays failed to show any sign of skull fracture or broken bones. She is in a temporary serious condition and will remain at the hospital for some time.

News of the accident was phoned the Arthur Neubauer home as Mr. Neubauer is chief of Civilian Defense of Southfield Township. Dr. E. L. Richardson, of Meadowbrook way, chief of the Civilian Defense medical organization, rushed to the scene as soon as notified. Due to the confusion involved in a child-accident, news of the disaster did not reach Civilian Defense authorities in time to administer first aid, although a master first aid kit, stretcher, and medical cards is available at all times whether the accident be on the highway or in the home. Thomas N. Reed, auxiliary chief of police of Southfield Township, stated that residents should familiarize themselves with the set-up as organized by the Civilian Defense, for their protection. Station wagons to be used as ambulances, stretchers, splints, first aid kits, blankets, etc., are available. Doctors and nurses, and nurses aides are ready and willing to help in case of disaster. Neighborhood air raid wardens should be contacted for complete information. Mr. Reed said Lathrup Townsite's donations to Civilian Defense made possible this protection.

A correction: According to Mrs.

Dean Weaver, member of the school board, "The presentation program is sponsored by the school board and is administered by a committee of large business firms, Eugene Himes, and including Mrs. Earl Doig, Mrs. Gordon Smith, Mrs. George Wilho, Mrs. M. J. Finnegan, Mrs. R. Genter, Mrs. Kenneth La Barce, Mrs. M. L. Kaykendall, Mrs. C. Layman, Mrs. G. Gormsen, Mrs. L. H. Franck, Mrs. Fred Wilson. It is a community project and has no connection with any one organization." Through misinformation, I stated last week that the project was sponsored by Women's Club.

**Works for Smokes Fund**

Dean McNeal, son of Mr. and Mrs. Jess McNeal, of California drive, has himself collected \$26.63 with which to buy cigarettes for convalescent soldiers stationed at the new barracks hospital at Romulus. Dean is a member of the Lathrup Townsite Junior Army, who when their collections are turned in, will be given the privilege of going through the hospital. Dean is one of the busiest boys heretobore. Besides attending summer school, he delivers a morning paper and magazines and has a Royal Oak paper route in the Townsite.

**Social News**

Mrs. L. J. Golekar and Mrs. Roy Golekar are visiting Mrs. Smith's sister, Mrs. R. J. Bahberg, of Chicago, this week. Mr. and Mrs. Harry H. Sauer will join them later in the week. Mrs. E. C. Jenkins, of St. Louis, Mo., Mrs. Mrs. Ada Barlow, wife of Chicago, Ill., spent the past week as the guest of the Thomas N. Reed, of Sunset boulevard.

Barbara Cline, and Sonia Black are away for a two weeks' stay at a camp near Plymouth, Mich. Vivian Black will join her sister and Barbara next week.

Bob Rohn, of San Diego drive, was a surprised host Saturday evening when neighbors tendered him a surprise birthday party. Bingo and prizes was the evening offering. According to reports, Bob's mother, and wife Florence, must have had a hand in it, for the good things to eat and drink bore witness to the fact.

**Triple Trouble**

Ray Parent, our friendly milk man, who enlisted in the Air Force in a hospital in a camp in Texas. Three weeks ago he broke his right arm during maneuvers and last week with his arm in a cast, he fell from a motorcycle rebreaking it. His wife, enroute to visit him in a friend's car, was struck by a passenger train and is in a southern hospital suffering a compound fracture of the right leg.

**May Take Plates Under New Law**

LANSING—Because automobile license plates may be taken away from the owner under provisions of the new motor vehicle financial responsibility law, drivers who formerly continued to operate their cars after their driver's license had been revoked can be effectively dealt with when the new law takes effect on July 30, state officials believe.

Police frequently pick up traffic offenders only to find that they are driving illegally, and that their operator's license had been suspended for a previous violation. They gamble on not getting caught, and they know their chances are good unless they get into another accident or are recognized by an officer who knows of the suspension. No license plates would make this difficult.

A father asked his little daughter to go and get his slippers, and he was surprised when she said, "I'm not going to do it."

He lectured her upon the impropriety of saying, "I'm not going to do it," to her parents. When his talk was finished, she looked up archly, exclaiming, "Well, Daddy, when I'm not going to do it what must I say?"

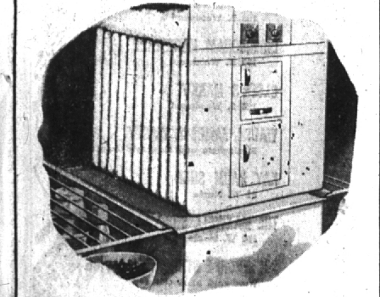

**What a Haul!**

It's only human to keep "putting-off," the chore of defrosting—especially in summer, when ice cubes are in big demand and you hesitate to have your refrigerator out of commission even for a few hours. But see this it is done regularly. Do not use an ice pick or a sharp instrument to remove ice; this sometimes punctures the refrigerating coils. After defrosting, wash the whole interior (coils, shelves, trays, etc.) with lukewarm water and mild soap. Unless the motor of your refrigerator is hermetically sealed, have it oiled and inspected periodically. Remember that your refrigerator must last for the duration. Treat it accordingly! The Detroit Edison Company.

Electricity is not rationed. But its production requires coal and railroad transportation. Don't waste it!

**Don't keep a "snow-man" in your refrigerator—**

**IT COSTS YOU MONEY!**

Warm weather means an added burden on your refrigerator. The hotter the weather, the harder it works to keep things cool. If you notice a "snow-man" forming inside—heavy frost on the cooling coils—it's time to get busy and defrost the refrigerator. That layer of frost is costing you money! It means that the refrigerator must work overtime to absorb heat through a blanket of frost around the cooling coils. And for economical operation, the motor should run as little as possible.

It's only human to keep "putting-off," the chore of defrosting—especially in summer, when ice cubes are in big demand and you hesitate to have your refrigerator out of commission even for a few hours. But see this it is done regularly. Do not use an ice pick or a sharp instrument to remove ice; this sometimes punctures the refrigerating coils. After defrosting, wash the whole interior (coils, shelves, trays, etc.) with lukewarm water and mild soap. Unless the motor of your refrigerator is hermetically sealed, have it oiled and inspected periodically. Remember that your refrigerator must last for the duration. Treat it accordingly! The Detroit Edison Company.
