I don't know why the sharks didn't get us.'

We walked, ate nuts and leather dress suit. Strany, we got around eight miles when there was no beach. We crawled through jungle vines, carrying the rocks and coral cut up, and the sand, trying to get back to the beach. After three days of blood because of a three-inch gash on my arm. WAR HAS PROVED VALUE OF FOOD!

MORE THAN EVER, you have learned that food can become a scarce item. You who have Deepfreeze service also appreciate its great value in the conservation and low cost of food.

DEEPFREEZE has proved its real value! It did in time of peace—and does so now in time of war. Surpluses from your Victory Garden crops, for example, can be retained, fresh and good as when taken from the garden, in Deepfreeze storage; that is a real economy, of course!

NO DOUBT, because of the war and its relation to food, you, (if you now haven't a Deepfreeze unit with us), are convinced that when peace comes you will reserve one of our new units—for we do intend to enlarge these facilities as soon as we can. So, Friends, may we suggest that you stop in and request that we save one of the new Deepfreeze units for you?

We have cartons for storing Frozen Fruits and Vegetables in Home Units or Lockers.
