Thousands of tons of ARMOR PLATE for tanks and ships and guns—

... another job Electricity is doing to help win the war

A white-hot ingot of steel weighing several tons shoots along on conveyors in the rolling mill, passing between giant rolls that squeeze it to the desired shape. The whole operation is mechanical: Powerful electric motors turn the rollers that guide the steel on its way. Electric motors of five thousand horsepower operate the huge sheet mills and the great "lying shears" that snip off chunks of steel like paper.

Electricity opens and closes the doors of the open-hearth furnaces where the molten steel is refined. Electricity operates the furnace fans and valves and a variety of auxiliary equipment. Electricity runs the 125-ton crane. Electricity picks up the 175-ton ladle that pours the molten steel into molds. Electricity drives the 200-ton "stripper," which lifts the mold in a pair of giant "ice-tongs" and punches the ingot from the mold with a huge plunger.

Without electric power, the flow of armor plate for today's tanks and ships and guns would be only a dribble. This is just one more job that electricity is doing to help win the war. The Detroit Edison Company.

Electricity is not rationed. But its production requires coal and railroad transportation. Don't waste it!

Cranbrook, Kingswood Summer Sessions To Open Monday

Cranbrook and Kingswood are re-opening for the summer sessions on Monday, June 28 and final registrations will be accepted at that morning. However, both schools have urged prospective students to register at once to avoid the last-minute rush and seeming confusion which accompanies the first day of classes.

The Kingswood Summer Institute has limited its curriculum to typing, shorthand, sewing, cooking and nutrition, physical fitness and recreation, but eligible girls may also arrange summer study programs as day pupils at Cranbrook School. A limited number of girls are registered at Cranbrook for review and advanced courses in the regular program arranged for the boys who are making up and accelerating their work in keeping with war-time tempo. An added feature of the Cranbrook School curriculum is the preparation program especially created for boys who are soon to enter military service.

Physical Fitness Recreation and physical fitness will be stressed at the Kingswood summer institute. This part of the program will be directed by Miss Jacqueline Thompson who has been teaching physical fitness at Northwestern University for the past several years. Miss Thompson has also instructed similar classes at the University of Chicago and at Columbia University.

She is nationally known as a swimming champion and as advisor for the National Interscholastic Telegraphic Swimming Meet.

Briarbank, Now Home for Aged, Dedicated Sunday

St. Elizabeth Briarbank, million-and-a-half dollar estate conducted by the Daughters of Divine Charity for the aged, was dedicated Sunday at 3 p. m. by the Most Rev. Archbishop Edward Mooney.

The 31-acre estate, located in Bloomfield Hills, formerly was the William T. Barbour home. Purchase of the grounds was made for the religious order and it becomes the second institution in the state opened by the religious order. Another institution for working girls is located in Detroit at Grand River and Trumbull avenue.

The Bloomfield Hills home is the only institution for aged in the State which allows married couples to remain together.

Subday's dedication attracted the Order's Superior General, Mother Kostha, who is spending the duration of the war in the United States. Mother Kostha, an American citizen, normally resides at the Mother House in Vienna, but was detained in this country at the outbreak of war while she

was visiting the American institutions. The American Provincial Superior, Mother Margaret, who resides at the Provincial House at St. Joseph Hill, Staten Island, also participated in the dedicatory ceremonies.

The former Barbour home, with its entrance on Woodward avenue, is completely landscaped with shrubs and flora collected from various parts of the world. Its spacious terraces, formal garden, pergola and marble fountain, tennis houses, guest houses, large swimming pool, tennis court, kennels, fish hatcheries, stables, and garages will now be converted for the use of the residents of Briarbank.

Among the institutions in the State which were represented are the University of Detroit, St. Paul's Monastery and Duns Scotus. Officials of Birmingham, the Detroit Community Fund and other notables were invited to attend.

Pontiac Marine Has More Lives Than Cat

Marine Pvt. Don C. Hornbeck, 880 Spencer street, Pontiac, is awaiting another crack at the Japs when he recovers from wounds received at Guadalcanal. Hornbeck isn't worrying much about getting well because having close

calls with death has become a habit with him. Here is his record: In 1938, doctors said he wouldn't recover when stricken with infantile paralysis. He fractured his skull in 1939. A year later he came up with a broken neck while swimming. The following year his cane tipped over, he was knocked out underwater, and almost drowned. August 19, 1942, he was wounded by

shrapnel and left for dead seven miles inside the Jap lines. It turned out he was alive enough to walk the seven miles back and at the same time outsmart and kill a Jap sniper. When he was leaving Guadalcanal on a destroyer, his ship had to dodge many enemy torpedoes. To top it all off—Pvt. Hornbeck is a very, very young Marine for he was born February 29, 1924, which gives him just four birthday anniversaries.

TO: Every American on a Payroll FROM: The Secretary of the Treasury

SUBJECT: The New Pay-As-You-Go Method of Collecting Your Income Tax

Starting July 1st, both your Income and Victory Tax will be collected by an entirely new and more convenient method.

Under the old system, you were obliged every March 15th to pay either the full tax for the previous year, or a quarter of that amount. Under the new system, you will keep paid up from month to month.

After July 1st, your employer is obliged by the new law to withhold every month a part of your wages and turn the money into the United States Treasury as payment on your Income and Victory Tax.

Of course, the amount that your employer withholds will depend upon your pay and your exemptions. But this is the important point: For most of us, the amount withheld over a year's period will add up to the same that we're paying now—plus or minus a few dollars.

At the end of the year, we may owe the Government a few dollars or the Government may owe us. (See the tables below.)

You may have heard 20% mentioned as the proportion of your wages that will be withheld. Actually, this is incorrect. To figure the amount that will be withheld, take your total wages and subtract your allowance for exemptions and allowance for dependents; 20% of this lesser amount is the total that will be withheld.

Now please remember this: You must claim those exemptions to take advantage of them. Before July 1st, you must file with your employer an Exemption Certificate. If you do not do this, your employer will have no choice but to deduct 20% of your full pay check.

Here is how the new tax collection method will work: Let's say you are a working man earning \$3,000 a year; that you are married, and have two children.

First of all, as a married man you are allowed a personal withholding exemption of \$1,248, plus an exemption of \$312 for each dependent (other than your wife). This makes a total exemption of \$1,872 (\$1,248 for yourself and wife, plus \$624 for your two

dependents), which is deducted from the \$3,000 you earn before your tax is computed. You are thus paying tax on \$1,128, of which your employer will withhold 20%, or \$225.60 for the year. Therefore, in your pay envelope, after July 1, you will receive about \$4.40 less each week.

In March, 1944, when you ordinarily would be faced with paying taxes on your 1943 income, you will file a return showing how much you have already paid, and how much your total tax actually amounted to. If, by that time, you have already paid more than your actual tax due, you will be given credit for the difference. If you owe more than you have paid, you will pay the difference.

Since this plan starts July 1, many wonder what happens to the tax payments they will already have made by that time—on March 15 and June 15.

For a great majority of people, here is what happens... Your 1942 income tax is "forgiven" (either all, or most of it). The March and June installments which you originally paid on that 1942 income tax are credited, instead, as payments on your 1943 tax. With the result that on July 1st, with the year half gone, you have already paid tax on that half-year's income. In short, you are "paying as you go."

There is one thing more. Since this pay-as-you-go method leaves you just as much of your net income as you had before, you will probably find it possible to at least maintain your present rate of buying War Bonds. Do this by all means!

Taxes alone will not bring to the Treasury nearly enough money to finance the great invasion war that lies ahead. The war needs every cent of your money that does not go for the necessities of life.

Henry Morgenthau Jr.

TABLE 1 SINGLE PERSON—NO DEPENDENTS. Weekly wage, Amount to be withheld weekly, Withholding as a percent of wages, Annual total to be withheld, Annual total to be paid.

TABLE 2 MARRIED PERSON—NO DEPENDENTS. Weekly wage, Amount to be withheld weekly, Withholding as a percent of wages, Annual total to be withheld, Annual total to be paid.

TABLE 3 MARRIED PERSON—ONE DEPENDENT. Weekly wage, Amount to be withheld weekly, Withholding as a percent of wages, Annual total to be withheld, Annual total to be paid.

TABLE 4 MARRIED PERSON—TWO DEPENDENTS. Weekly wage, Amount to be withheld weekly, Withholding as a percent of wages, Annual total to be withheld, Annual total to be paid.

If the amount withheld during the year is more than your total Income and Victory tax for the year, the Government will refund the difference.

If the amount withheld is less than your total Income and Victory tax for the year, you will pay the difference to the Government.
