WHAT ARE VITAMINS? They are chemical substances which Nature packs into foods. They are essential to good health and vital to life, itself. WHY DO YOU NEED VITAMIN PREPARATIONS? Because a great deal of the original vitamin content in foods is lost in transit and in cooking. Fortunately, though, science has found ways to duplicate Nature's own vitamins so that you can safeguard your health by supplementing your diet with vitamin preparations.

Mrs. Peppiatt has volunteered to contact women in the Townsite for coats pillows, mattresses, and bedding for visiting soldiers who because of the crowded hotels and inaccessible homes are forced to seek shelter in other places. Buses, trains, and cars are jam packed with weary warriors from all parts of the globe, who land in Detroit week-end and cannot find places to stay. The United States Commerce undertook the job of finding refuge for the soldiers, sailors, marines and flyers, and three downtown churches have opened their doors to these men. But the need is great, so many thousands who are shutters each week and there is not enough bedding, not enough coats, mattresses or pillows. Lately they have been sleeping on the church floors. The request goes out for 200 single beds or cots, 1500 blankets and 1500 pillows and 300 mattresses. Goodwill industries will call for what ever you can spare in that line. Mrs. Peppiatt requests you bring things to her garage which will be open between now and collection day, Monday, Nov. 15.

Godsend Dull, brooding, boring, gloomy, sulky day. With not the least wisp of blue in the sky. So almost-black, so gloowering. So High Over the dullness, over the bottled grey. Rides the gold sun in its great majesty: Breaks through the clouds and streaks across my floor of blue. Kindles the erstwhile drabness of outdoors. And then is gone again as suddenly. Yet the dear wonder of a stays awhile. Its loveliness still lays across the place. Lingers as does the pattern of a smile. Flashed unawares across a quiet face. Sun on a dark day streaming from above. Smiles on the faces of the ones we love! —Beatrice McDonald
