## FRAMED!

TO GAIN the greatest enjoyment in the possession of photographic portraits of those you love—give thought to the framing! Let it be determined by the photograph itself—its size, character, subject—and further, by the room in which you wish to place it. Thus, your favored photographs will be not only appropriately but ideally framed!

The many frames awaiting your selection at LaBelles are far from ordinary, and in such an extensive range that "just the right frame" is assured. We would describe them for you here but, after all, correct frame selection is quite exacting—and it's always most satisfactory when the photograph to be framed is brought to our shop; for then one may safely determine whether it should be glass, leather, or wood—quaint or modern—small or large, round or square—narrow or wide—in brief, ideally framed!
