Keep Pot Black For Fuel Savings

The pot can keep the kettle black nowadays and make it a wartime compliment, according to Home Economics specialists at Michigan State College.

For if either the pot or the kettle is black, on the bottom, less fuel is needed to cook the family meal or preserve food for winter consumption.

Shining pots and pans have been used for centuries as a guide to a cook's neatness, but wartime shortages have changed that situation. Steel wool and copper have become scarce and housewives have been deplored for the lack of chrome boys and other gadgets usually used to keep the smudges off cooking equipment.

In a series of tests with cookies a shining new tin required over 25 degrees less heat than a tin for cookies baked on dark tins. In fact, the specialists point out, tin should never be polished anyway, since the thin layer of dirt wears off and leaves the steel exposed to rust.

The science of heat absorption backs up the wartime blacked pot. Shiny surfaces reflect heat. Dull surfaces absorb heat. For wartime, at least, it is pointed out, kettles and pots can go unpolished, if inside surfaces are kept clean.

Mr. and Mrs. Robert L. Partlanne, announce the birth of a son, Joseph Robert, born Tuesday at Providence Hospital.

Why The Paper Was Late
The Enterprise comes to you a day late this week for the first time in many years. Our printer, Helen Haller, lives seven miles out on the Halifax road and the high water made it impossible for her to get to town Thursday until evening. All we could do was wait—Alma (Kan.) Enterprise.

Noted Youth Advisor To Discuss Parent-Child Problems Here

With a warm heart, Birmingham's A.A.U.W. whose keynote this year is education, is starting off its 1943-44 season appropriately with the parent-child schools—a gift of a remarkable youth counselor, Mrs. Dorothy Phillips, who will volunteer the entire day of Wednesday, Sept. 21, to helping iron out the problems of school children and parents of the community.

With the hearty backing of Dr. H. Ireland, Superintendent of Schools, and Edna A. Wagner, new high school principal, Mrs. Phillips will talk to the high school students in the morning of that day at assembly, to the members of A.A.U.W. at their first monthly meeting of the year that afternoon, and in the evening, again in the high school, to the community at large, with special invitation to members of PTA.

Between times Mrs. Phillips will have personal interviews with any young people or parents who feel the need of sound advice.

Mrs. Phillips comes under the recommendation of the Department of Public Instruction of Pennsylvania and the Michigan Council of Adult Education.

She was born in England and educated there and in Switzerland, and is a lecturer who, according to Paul Cressman, Director of Pennsylvania's Bureau of Instruction, "does a remarkable job with young people, especially in the field of boy and girl relationships."

Harold Maurer, Supt. of the Garfield Heights City Schools in Cleveland, goes further: "has yet to meet the person who does a better job." He has found, too, that "many of our students felt this single contact to be one of the most important ever made during their school career."

Mrs. Phillips' career, which includes college teaching, lecturing at this conference and that, authoring, broadcasting, is too multitudinous to go into here. Suffice it to say that Wednesday, Sept. 21, will be a memorable day for young and old—in Birmingham.

Nurses' Aides in Recruiting Drive

Mrs. E. L. Bradley, Chairman of the Red Cross Nurses' Aide Committee for Oakland County is issuing an urgent plea for more Nurses' Aide volunteers.

A class under the supervision of Mrs. Lewis Danis is starting as soon as possible after Sept. 20 and anyone interested in joining may come and see Mrs. Bradley at chapter headquarters any Wednesday afternoon from 2 to 4 or from 7 to 8 Wednesday evening.

Mrs. Bradley states that the heads of the Pontiac General and St. Joseph's Mercy Hospitals say that they could not possibly get along without the Nurses' Aides who are already volunteering many hours of their services. The present emergency is greater than ever and more graduate nurses are leaving to join our armed forces and the coming winter will see a tremendous need for more Nurses' Aides.
