Fruit Crop In This Region Should Be Unusually Large One

With return of favorable weather the Birmingham region should have a wonderful crop, according to state and national horticultural experts. Many orchards near this city are well filled with peaches, pears, apples, grapes and other fruits.

In fact the fruit outlook for the entire state is considered good and reports indicate a liberal supply of fruits to can.

Out of the federal agricultural department in Washington, D. C., comes a report that prospects for the 1944 cherry, peach, pear and sugar beet crops in Michigan took a decided turn for the better during July.

The report said that with harvesting nearly completed, production of all varieties of cherries in 12 commercial states was indicated at 20,030 tons, or 76 per cent above last year and exceeding earlier expectations.

"The peach prospects improved three per cent in July. The nation's 1944 crop was estimated at 71,316,000 bushels, 69 per cent larger than last year's short crop and 24 per cent above the ten year (1932-42) average. Michigan's peach crop was estimated at 3,600,000 bushels.

"Aug. 1 conditions indicated a 1944 pear crop of 28,410,000 bushels, the department said. 16 per cent above last year but one per cent below the ten year average. Pear production in the central states, however, was set at 4,315,000 bushels, about twice last year's crop.

"Good growing weather last month in Michigan and Utah accounted for 71,000 tons of the sugar beet improvement. Michigan is expected to produce 552,000 short tons of the total 77,303,000 ton sugar beet crop this year, which is about 12 per cent larger than the national harvest in 1943 but one-fourth less than the ten year average.

"Grape production prospects continued favorable during July, with a crop of 2,722,150 tons indicated compared with 2,972,900 produced last year. 21

"Commercial apple production prospects improved about 3 per cent for the nation as a whole during July. The estimated 222 million bushel crop in the central states region is 32 per cent more than last year, but Michigan is expected to produce one per cent less than it did in 1942."

Search for Mineral Resources Continues Throughout Michigan

Search for hitherto undiscovered mineral resources will be continued in Michigan in coming months by the conservation department in cooperation with the U. S. Geological Survey the University of Michigan, Wayne University, and the Michigan College of Mining and Technology at Houghton.

The conservation commission has provided a token contribution to insure continuation of the geological survey and mapping of iron-bearing formations in Iron county, begun a year ago by the U. S. Geological Survey with the hope of finding new iron ore deposits.

University of Michigan geologists have begun a study of oil and gas possibilities in southern and southeastern sections of the lower peninsula, which is a continuation of similar studies made previously in the Mackinac Straits area and counties reaching southward to central Michigan oil fields.

Further mapping and study of old glacial lake beaches in the Saginaw valley, which may reveal new gas and oil bearing rock structures, will be continued this summer by Wayne University geologists.

In making fruit preserves, the soft, tender fruits like berries, cherries and peaches hold their shape better if they stand overnight in sugar before being cooked. Fruits that are naturally very firm may be made hard or tough by sugar, therefore, these fruits should be steamed or cooked in water before the sugar is added.

If using chocolate for making custard or ice cream, melt the chocolate and milk together in a double boiler over hot, but not boiling, water and then beat smooth with an egg beater. Chocolate contains a little acid and should not be heated too long in milk as it may cause curdling.

Those Boys Need You
BUY WAR BONDS!!

S.O.S.

We need help. The owner wants to occupy the home we have rented for six years. We want to stay in Birmingham for the duration but business connections make buying inadvisable. If you know of or hear of a house, preferably in the Quarton School district, that is or will be for rent, won't you please let us know. We will be glad to make it worth your while. THE WHITNEYS, Myron, Adelaide, Connie and Frank, 635 Oak Street, Phone 966.
