## Package Ruks Prove Popular Timesaver

Whether for a company meal or just for the family, a creamed vegetable, fish or meat on rusk provides a quick, easy dish with plenty of taste and eye appeal. Inexpensive, unrationed, and ready for use right out of the package, rusk have long been popular timesavers for the busy homemaker. Their light, crisp texture and appetizing flavor make them excellent bases for creamed foods.

Creamed small onions and pineapples, creamed sweetbreads, mushrooms and green peas, or creamed fish garnished with ripe olive rings are all delicious on rusk. The possibilities for other combinations are unlimited.

Cutting a small circle or triangle out of the center of the rusk, then putting the creamed mixture over and placing the circle on top, adds an attractive note. Or, if honoring a special guest, his initial cut out of the center of the rusk and placed on top is nice.

When the youngsters bring friends home for a bite to eat after the dance, rusk are handy to have on the pantry shelf. A slice of tomato, a strip of bacon and a thin slice of cheese, grilled on rusk hits the spot for midnight snacks.

The dark meat of chicken contains more food value—iron—and probably more iron than the white meat.
