He got \$1793.50 for it. If you're a war plant worker, why maybe . . .

## Theatres Boosting Local Polio Fund

The report on the infantile par-lysis fund campaign at Birming-ham's two movie theatres was made today by Howard C. Hliah, disclosing a total of \$1,916.01 raised at the two theatres.

The money left to be turned over to the Birmingham branch of the Oakland county committee and on behalf of it will remain here for use in caring for any case of poliomyelitis.

Of the total sum raised in the theatre drive \$1,901.11 was sub-scribed by patrons of the Birming-ham theatre and \$145.80 by pa-trons of the Boulevard theatre.

Movie houses throughout the country have been very energetic in their campaigns to raise funds for this campaign and the total amount thus secured from the country as a whole is expected to reach a large figure.

## Silver Wings Go To Five More Young Birmingham Men

Five more Birmingham young men have recently graduated from U.S. Army advance training schools and received their silver wings as pilots and their commis-

sions as second lieutenants in the Army Air Corps. Those just com-pleting their studies include Wil-liam G. Campbell, Anthony M. Purman, Jr., Ronald G. Bado, James A. Garfield and Raymond Foulkrod.

Lt. Campbell was commissioned and received his silver wings at graduation ceremonies held recently at Freeman Army Air Field, Seymour, Indiana. He is the son of Mr. and Mrs. Wilbur G. Camp-bell, 788 Ann street, and is spend-ing his leave here in Birmingham. Lt. Anthony M. Purman, Jr. son of Mr. and Mrs. Anthony E.

He will go to transitional training school to prepare for combat duty.

Harbors like this make mighty fine enemy supply dumps if left alone—so they're bombed regularly.

## More Child Care Homes Are Needed

A unique opportunity for splendid patriotic service is offered to the women of Birmingham by the Committee on Day Care for Chil-dren, which is asking patriotic women who enjoy youngsters to give day care to one or more chil-dren of mothers who must work.

The need is increasing in Birm-ingham, a growing number of calls being received by Mrs. Anyce Gillette, city nurse, and Mrs. Julia Lally, of the Community House, testify.

Each of these calls is the out-come of a difficult problem, caused, usually, by the war, which in re-quiring the services of more and more fathers, leaves many young mothers who simply cannot support families on service allotments and who must take jobs. Of the four nursery schools in Birming-ham, only two are open sufficiently long hours to be useful to working mothers. Mrs. R. D. Waterland's Little Folks Nursery school, and Mrs. H. F. Merrick's school, and these are full and have long wait-ing lists.

Foster day care homes seem the only answer. There must be women in Birmingham, the committee feels, who will volunteer to take care of a war wife's child or chil-dren while she works. Women who want to contribute in this way to the war effort and to the proper growth and happiness of children are asked by the committee to vol-unteer their names with Mrs. Lally at the Community house, Tel. No. 2406.

The child day care committee is part of the Civilian War service of the Office of Civilian Defense and is composed of Mrs. W. L. Shaff-ner chairman; Mrs. William Jack-son, Mrs. L. N. Pyle, Dr. Lloyd Kenyon, Mrs. Anyce Gillette, Dr. Dwight Ireland, Mrs. Lally, Mrs. Harry Brelsford, Mrs. Ferd Brock, Mrs. J. R. Quinn, John P. Hackett.

The entire basement was soon ablaze. Mrs. Bedard and children escaped from the burning structure and went to the home of a neighbor. Damage to the building is estimated at around \$200 with much heavier loss to furni-ture, clothing, and other house-hold equipment.

The smoky day coal gas nearly caused the death of three persons at the E. McNeil home at 30333 Strathfield. One of the three finally was aroused sufficiently to phone the fire department for help.

Heavy smoke resulted in a call to the fire department from the Cadillac garage, corner of Wood-ward and Willette, where a defect-ive chimney draft had filled the basement with smoke. Firemen had to wear their smoke masks in order to get into the basement.

During last week there were a couple of grass fires needing at-tention of the department. Fire Chief Griffith urged that home owners and persons in charge of furnaces in stores and other buildings use much care in keep-ing rubbish and other inflammable material away from furnaces, stoves, hot water heaters and other similar equipment.
