THIS EXPLAINS WHY TELEPHONES ARE SCARCE Here is a telephone "central office" in the South Pacific. The Marine Corps operator is putting through calls between headquarters and advanced posts. Every move our armed forces make is coordinated by countless telephone instruments, miles and miles of wire. As the pace of war increases, the need for this equipment grows greater and greater. Unfortunately, it is impossible to equip our fighting men, and still meet all requests for service at home. Orders for telephones essential to the war effort are filled promptly. Other requests for new service are handled under an authorized and equitable procedure, not subject to exception, as long as we give up service. But there is a long and growing waiting list. We regret if you have been seriously inconvenienced. But we appreciate your patience and understanding. MICHIGAN BELL TELEPHONE COMPANY BUY AN EXTRA WAR BOND NOW
