## Detroit Artist Will Display Paintings At LaBelle's March 4th

Adams attempted to develop his ideas along these lines. He will ex lain his theory of the dimensional art, and his progress in developing it, at LaBelle's on Saturday!

Before the war, industrial mar agement didn't have to worry about welders and riveters who forgot to disconnect their electric irons a home.

# An easy way to SAVE COAL-

...turn out every other light!

If you operate a business establishment using electric lights for outdoor display. here is a simple and practical way to conserve electricity. The plan is already being followed by some users of electric signs, theater marquees, show windows, etc.

The Government asks you to save electricity in every way possible, to conserve fuel, transportation, manpower and other critical resources. Even though electricity is not rationed and there is no shortage in this area. SAVE voluntarily wherever you can, as much as you can.
