EVERY year you have given to the Red Cross . . . willingly and with a free heart. You helped us help millions of people . . . when the floods struck . . . when the earthquakes came . . . when famine devastated some far-off land. It was your habit to give . . . the great proud habit of thirty million American families . . . proud that they could give . . . proud of the great Red Cross, that made the giving worthwhile.

But this year it is going to be different. When you dig into your pockets and purses it won't be just your "regular" contribution. For this year of global war the need is greater than it's ever been before.

And this year it is your own boys the Red Cross serves . . . Eleven million of them in every land from Sicily to Chungking . . . on every ocean and in every sky.

This year, when you cannot be near your sons, you will give generously and be glad that the Red Cross—your Red Cross—is still the greatest mother in the world.

This year, when the need is greater than ever before — this year you will want to

give more . . . to give freely to your own Red Cross . . . to your own sons in the service.

So give—for this is the year when giving really hits home. Give for the boy who longs to be with you—give to your Red Cross which will reach him for you.

This time dig deep—deeper than ever before. Dig deep and be glad that you can.

Yes, give generously and be glad that Red Cross—your Red Cross—is still the greatest mother in the world and that wherever in the world your boy is
