Can You Picture MICHIGAN without Doctors?

Today, Michigan's doctors and nurses by the hundreds are serving with our Army and Navy from Alaska to Iran, from Australia to Italy—bringing back to health the men who are helping win Victory for the United Nations. But on the home front, over thousands of doctors and nurses are fighting doubly hard to keep their fellow-citizens of Michigan in good health—doing everything in their power to prevent or minimize interruptions in our State's war effort.

In a very real sense the well-being of all of us in Michigan is in the capable hands of approximately 6,000 physicians and surgeons and about 14,000 nurses. At their disposal are the facilities of 252 hospitals which have beds for nearly 60,000 patients at one time. In an average year more than 525,000 patients are admitted to these institutions. To the Michigan Department of Health

goes well-deserved credit for the high standards of medical care prevailing in our State.

We of the Greyhound Lines pay tribute to these fellow-citizens of ours who are doing so much to make our State a finer place to live in. They're doing a big job—a vital one. Greyhound's job is quite different—but vital, too! Providing safe, convenient transportation service is particularly important now. By making near neighbors and good neighbors of all the communities we serve in Michigan, we are helping unify the war efforts of this State—keeping them rolling toward Victory!
