...peeking' cross the hedge!

HOW frequently folks "compare notes" after a successful occasion at someone else's home—noting the gracious good taste of the drinkware and the dinnerware, the smartness and the correctness of it all.

Chances are such hostesses have given far more than cursory study to the drinkware and dinnerware which adds so much pleasure to these occasions. It might be called "background," true, but actually drinkware and dinnerware are so foregrounded that the successful hostess makes certain she is one who causes guests to "peek 'cross the hedge" and take note.
