

South Oakland County Harvest Show Considered One of Best of Kind Ever Held in This Area; Many Garden Clubs and District Horticultural Society Arrange Unusual Exhibits and Displays

To the many garden fans of South Oakland county, the second annual Harvest Show was an inspiration and a spur to do better things in their gardens next year. Upon entering the Market Building in Royal Oak, where the show was held, the professional exhibits of flowers, vegetables and fruits greeted everyone's eye. This professional exhibit was sponsored by the Birmingham District Horticultural Society. This group was judged by a separate set of judges from the amateur exhibitors and the society itself gave the prizes.

The next exhibit was the Royal Oak Garden Club's whose theme was a rustic scene with a log table loaded with produce. The Huntington Woods Seed and Sod Club had the next exhibit which was an artistic 19th Century dining room. An arrangement of autumn vegetables was the centerpiece of the table.

Farm, Garden Club
The National Farm and Garden Association, Royal Oak Branch, held its lawn scene as their exhibition. St. John's Woods Garden Club had a very attractive exhibit whose focal interest centered on a large horn of plenty from which all kinds of shapes and sizes of garden produce poured.

To a great many people the special exhibit was the high point of interest in the show. Included in this non-competitive group was the action in pecanias, eldins, and Michigan nuts. There was also an interesting wood and bone display.

The H Club of South Oakland entered into the fine spirit of competition by having three booths at the show. They placed, Bakers first; Clawson, second; Beverly Hills, third.

The source of amusement was the exhibit of Mrs. Weaver of Clawson. It contained everything from a group of all new garden plants to a source of amusement was the exhibit of Mrs. Weaver of Clawson. In the very center of the building in the Garden Center of South Oakland, sponsors of the show, had their exhibit. Alternating hand, the green and white table in the center of the building. The arrangements were placed on these tables. A small booth took care of all new garden plants.

Judges Clinic
The program of the show started with the Judges' Clinic Sunday morning. Each judge took a group of exhibitors around the show explaining why certain entries got placed while others did not.

TOUGH ON BLACK MARKET
The new "A" basic gasoline ration books are going to be hard on the black market in two ways, the OPA says. They are printed on a new type of government paper, which is paper almost impossible for counterfeiters to duplicate, and each book and all contents contained will carry a serial number. With the combination of the serial number and the motorist's name on his own state and automobile license number it will be much easier for OPA to trace stolen ration books. The serial number enables a person to be traced from the plant that printed it to the person to whom it was issued. The endorsement makes it possible to trace an illegal coupon to the person who put it in circulation. Authorities recently arrested four alleged counterfeiters in New York City and seized equipment ready to print five million counterfeit gasoline coupons.
