Bloomfield Village And Bloomfield Hills Plan Paper Pickups

Bloomfield Village and Bloomfield Hills are completing plans for their October paper pickups. The Village will hold its pickup on Oct. 4 and 5 and its prepared paper pickup on Oct. 7.

Last month out in the Village there were ten families who bundled and put out more than 400 pounds of paper for each home and have been placed on the Village honor list. There were nine more with 300 pounds each. But to offset this there were some who had no paper at all for the war effort.

Villagers are asked to have their paper in readiness at their open garage early in the morning and their tin cans out at the curb by 8:30 on the tin can collection day.

Letters are going out this week to the Hills residents by Mrs. Henry Gassaway, chairman. Persons not receiving the notices, or those who find their notices with an incorrect address are asked to phone Mrs. Gassaway.

Clifford Dixons Are Moving to Arizona

Among the many parties given in honor of the Clifford Dixons, who are moving to Arizona, Mrs. Dixons' dinner entertained 20 for luncheon at the Community House Thursday, the New York designers are showing in suits and coats as well as dresses. It looks definitely new, as well, for its pretty girlie belt, made up of countless tiny sequins. Glitter on wool also comes out in necklaces, embroidered right on the dresses, and in jeweled buttons fastening such classic type suits as black wool tulle.

SALADS ADD COLOR

An attractive salad may be perked up to perfection if the salad ingredients are well assorted. Color is an important consideration when combining salad foods.

THE ECCENTRIC'S Camera Corner

A new toy, or an old favorite, will help bring forth a baby's personality. NEARLY everyone takes baby pictures—either at his own child, or those of friends. And right now snapshots of new arrivals, as well as other children, are important because fathers, brothers, relatives, and friends in the Service get a big "lift" out of receiving pictures from home.

A baby's expression, its gestures, its absolute lack of "pose," and the interest in its eyes as it examines a rattle or toy, make it one of the most fascinating of camera subjects. Too many snapshots of babies, however, show insufficient care on the part of the taker. Bad backgrounds, poor lighting spoil some when a moment's thought would have led to a much better picture.

Another way to restrict his activities is by picturing him in his high chair, crib, or play pen. The high chair is especially useful if you want to snap a close-up head-and-shoulder picture, using a portrait attachment over the lens of your camera.

A baby should always be pictured as a personality in his own right. As a matter of fact, he has a life

of his own, and he should be pictured as such. With a box type camera you'll have to wait for that moment when the baby is not yawning before clicking the shutter. If it is one with variable lens apertures and shutter speeds, it is better (light permitting) to use a shutter speed of 1/50 of a second or faster, so that movement of the baby during exposure will not cause a blurred effect in your picture.

To assure proper exposure it is wise to invest in one of the ten cent pocket exposure guides which you can buy at most dealers in photographic materials.

Here's to better baby pictures and don't forget to have extra prints made shiny cups that can be waved and banged against things. These are the things that a baby likes, and they should be associated with him in pictures whenever possible. They are as important in his picture as costume and scenery in a play.

Of course outdoor pictures are in order now, so first of all locate a place for the baby in nice open shade; that is, a shady spot well lighted by the sky—not under a tree or porch roof. After getting him all set up in his blanket, in his crib or play pen, seat yourself comfortably in a chair about six or eight feet from your subject and, with your camera properly focused, wait for that moment when your viewpoint for that instant when he comes through with a million dollar smile or pout... then shoot.

"I have all my Christmas Shopping done!"

Some folks can already say, "I have all my Christmas Shopping done." But most of us, in these busy days, have it still to do.

To the person planning now to begin, we suggest a visit to LaBelles. So many have found this Shop to be the end of their search for just the Gifts they were looking for that it has since become their habit to come here first with their Gift plans.

Months ago LaBelles foresightedly prepared for this Christmas, so that now your visit will be so satisfactory that after your visit you too can say: "I have all my Christmas Shopping done."
