Ford Estate Near This City Bought For Recreation

BLOOMFIELD HILLS, Mich.—Purchase of the 2,442-acre Edna Ford estate near Highland, Oakland county, by the Conservation Commission at its recent meeting here, brings to 33,095 acres the public area acquired by the state under its southeastern Michigan recreational land program.

The state bought the entire property for \$300,000. The Ford family says more than \$1,000,000 was invested there. About 60 per cent of the land is covered with forest. Two lakes are included, one of which will probably be converted into a waterfowl sanctuary. The conservation department expects to use the area for recreational purposes, probably establishing a museum in the residence. Extensive game management practices will be practiced on both the wild land and the farm land section of the property.

Purchases of land in the southeastern Michigan areas approved by the commission here aggregated 5,777 acres. Of this, exclusive of the Ford property, 223 acres in the Pontiac Lake area, 20 acres in the Proud Lake area, and 25 acres in the Rochester area.

ACME Window & House Cleaning Company

Phone 1162 424 PARK STREET BIRMINGHAM "Oakland County's Oldest Window Cleaning Service"

Remember the egg that "just got by"?

THERE'S a story about a schoolboy whose grades were never more than merely passing. His father asked him one day whether he was satisfied to "just get by." "Yes, father," replied the boy. "My son," said the father, "how would you like to eat an egg that 'just got by'?" The point is that most Americans aren't satisfied in peacetime with anything less than the best that can be had. We know it's true of the kind of telephone service Michigan folks want.

The telephone bill is so small an item in their regular expenditures that customers want really good service even though it might cost a trifle more than they would need to pay for inferior service.

In order to provide you with the kind of telephone service you want in the future, Michigan Bell sees the need for a 5-year \$120,000,000 post-war expansion and improvement program. Money to finance that program must come from the savings of thrifty people who are willing to invest in Bell System securities. But, if prospects for future telephone earnings are unattractive compared with those of other companies, people will place their savings elsewhere.

Too long a continuation of a rate of earnings substantially below that of other industries would weaken our ability to raise the money required to meet expected telephone needs. So the future quality of your telephone service depends on telephone rates sufficient to produce earnings attractive to investors.
