Church News

**First Church of Christ, Scientist**  
Corner of Chester and Willets Streets  
"Our" will be the subject of the Lenten service in all Christian Science churches on the world on Sun. Feb. 20, 8 o'clock.

The Golden Text (Psalm 42:1) is: "Till my soul waiteth upon God, from him cometh my salvation."

And the Bible citation is in the passage (Romans 13:10): "Owe no man anything but love one another as you love yourself; for he that loveth another hath fulfilled the law. Love worketh no ill to his neighbor; therefore love is the fulfilling of the law."

Correlative measures to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following: (1931) "When we realize that there is one Mind, the divine law of love, our neighbor as ourselves is unfolded; whereas a belief in many ruling minds makes man's normal self, to worship the one Mind, one God, and leads human thought into opposite channels where selfishness reigns."

Stay on Your War Job and Give Him a Lift

From Luzon to Luxemburg . . . from Italy to India . . . this husky, healthy American soldier is in action against the Axis. He's the world's best fighter, too, providing he has the arms and ammunition, the food and fuel, the bombs and bombers . . . the 700,000 different items required for battle. When he was shipped to a fighting front, five tons of equipment went with him. However, that was just a start. Once overseas, an additional ton a month was required to maintain him. Multiply this by the requirements of his millions of buddies, and you'll understand why every war worker on every type of job must continue to produce vast quantities of vital war materiel. Don't let this soldier down . . . give him a "lift" by sticking to your war job until the fight is finished!

When There's a War to be Won Every Minute Counts on Both Fighting Front and Factory Front

The GMC military truck, pictured at the left, is also in the fight on every front. Produced in Pontiac, this numerous type of transport vehicle is the Army's most mud and mire . . . over rough and rocky terrain . . . it is giving our fighters and fighting equipment a big lift on the roads to Berlin and Tokyo. Workers at GMC Truck and Coach are proud to be building the "Work Horse of the Army" and will see that it continues to roll off the assembly lines in the quantities needed.

GMC's Employment Office at 661 South Boulevard, Pontiac, is open from 8:30 A.M. to 5 P.M., Monday through Saturday
